Tired of outdated, inefficient, and insecure visitor logbooks?

Manual check-in processes are a thing of the past. They are prone to errors, create security risks, and leave a poor first impression on your guests. In today's fast-paced world, your business needs a streamlined, secure, and professional solution to manage visitors.

What challenges come with implementing access control without a visitor management system?

Manual Check-In Processes
- Front desk staff must manually log visitors, leading to inefficiencies.
- Higher risk of human error in recording visitor data.

Limited Visitor Tracking
- Difficulty in monitoring who enters and exits the premises.
- No centralized log of visitor names, contact details, or purpose of visit.

Security Risks
- Unauthorized individuals may gain access if visitor identities aren't verified.
- No way to revoke or expire temporary access for visitors after their visit.

Scalability Issues
- Managing a high volume of visitors becomes cumbersome without automation.
- Security bottlenecks at entry points during peak times.

No Integration with Access Systems
- Temporary badges or access codes must be managed separately, increasing complexity.
- Difficulty in syncing visitor access with employee access control systems.

Introducing the NUVEQ Cloud-Based Visitor Management System.

Our intelligent and intuitive platform revolutionizes your front desk, enhancing security and providing a seamless and welcoming experience for your visitors, all while boosting your operational efficiency.

A Seamless Experience from Invitation to Departure

NUVEQ offers a variety of modern and contactless check-in methods to suit your needs:

- **Host-Invited Visitors:** Employees can pre-register guests by submitting their details in advance. Visitors receive a digital pass with a unique QR code via email for a swift and touchless check-in upon arrival.
- **Self-Registration:** Visitors can check themselves in upon arrival using a QR code or a web form on a tablet. The host is instantly notified for approval.

PRE-REGISTRATION
VISITORS REGISTER IN ADVANCE VIA WEB PORTAL

REGISTER

SELF-REGISTRATION
Visitors sign in via a QR code or web form upon arrival.

SCAN QR CODE

Advanced Recognition Technology:

- **QR Code Scanning:** Fast and easy check-in using a unique QR code sent to the visitor's smartphone.
- **Facial Recognition:** For a truly seamless and contactless entry, our system can match a visitor's face to a pre-registered photo.
- **License Plate Recognition (LPR):** Automatic gate access for vehicles. Visitors' license plates are pre-registered and recognized upon arrival for automated entry.

QR Code Visitor Pass

- Visitor pre-registers (via email/web form) or checks in on-site.
- System generates a unique QR code (sent via email)
- Visitor scans QR at entry gate/door for access.

Face Recognition for Visitor Authentication

- Visitor's face is scanned during check-in.
- System matches against a pre-registered photo or verifies in real time.
- Contactless Entry: Replaces physical badges, allowing seamless access through turnstiles or doors without staff intervention.

License Plate Recognition (LPR) for Vehicle Access

- Visitor pre-registers vehicle plate number.
- LPR Cameras capture license plates at entry/exit points, cross-referencing them with pre-approved databases for instant gate opening.

Key Features for a Smarter & Safer Workplace

- **Digital Pre-Registration:** Reduce wait times and collect necessary information before visitors even arrive.
- **Cloud-Based Management:** Manage visitor data and access permissions from anywhere, at any time.
- **Enhanced Security:**
  - **Visitor Verification:** Know exactly who is on your premises at all times.
  - **Access Control Integration:** Seamlessly integrate with doors, turnstiles, and elevators.
  - **Temporary & Expiring Access:** Digital keys and passes automatically expire after the visit.
- **Comprehensive Reporting & Audit Trails:** Generate detailed visitor reports for compliance and security analysis.
- **Contactless & Hygienic:** Minimize physical contact and promote a healthier environment for everyone.

Benefits That Go Beyond the Front Desk

- **Make a Great First Impression:** Provide a modern, professional, and welcoming experience for your guests.
- **Increase Efficiency:** Automate manual tasks and free up your front desk staff for more valuable activities.
- **Strengthen Security:** Prevent unauthorized access and maintain a secure environment for your employees and assets.
- **Ensure Compliance:** Easily generate reports for security audits and regulatory requirements.
- **Gain Valuable Insights:** Understand visitor traffic and patterns to improve your operations.

Tailored for Your Industry

NUVEQ's Visitor Management System is trusted by a wide range of industries, including:

- Manufacturing & Industrial Facilities
- Educational Institutions
- Corporate Offices
- Banks & Financial Institutions
- Local Government Buildings
- And more!
