

# The Future of Access. Now in Your Hand.

NUVEQ Mobile Credentials  
Intelligent Access  
for the Modern World

# Is Your Access Control Holding You Back?

## High Costs

Constant expense of issuing, managing, and replacing lost or stolen physical cards.

## Security Risks

Vulnerable to cloning, theft, and unauthorized sharing, creating significant security gaps.

## Administrative Burden

Time-consuming manual processes for onboarding, offboarding, and access level changes.

## Environmental Waste

Contributes to unnecessary plastic waste, conflicting with corporate sustainability goals.

# Say Goodbye to Plastic IDs. Say Hello to NUVEQ.

The Old Way

The NUVEQ

Way

NUVEQ Mobile Credentials transform any smartphone into a secure, convenient digital identity. It's the smart way to access your world.

# Your Phone is the New Key.

## Introducing the NUVEQ Mobile Credential

Say goodbye to traditional plastic IDs. The NUVEQ Mobile Credentials app transforms your smartphone into a secure, convenient, and intelligent digital identity. Unlock doors, access facilities, and manage permissions—all from the device you already carry.

## Security in Your Pocket

Mobile Credentials for  
Physical Access Control

# The Pillars of Modern Access Control

## Uncompromising Security

Protect your assets and people with military-grade, multi-layered encryption built for a Zero Trust world.

## Seamless Convenience

Empower users with frictionless, contactless access from the one device they never leave behind—their smartphone.

## Intelligent Management

Streamline security operations with a unified, cloud-based platform that provides total control from anywhere.

# Security at the Core. Multi-Layered Protection.

## Military-Grade Encryption

Credentials are protected by AES-256 encryption, the highest industry standard. We also use random code-hopping to prevent replay attacks.

## Anti-Cloning Technology

Dynamic key rotation ensures that credentials cannot be duplicated or cloned, unlike traditional physical cards.

## Zero Trust Ready

Our system is designed to integrate with modern security frameworks, including Multi-Factor Authentication (MFA), to verify every access event.

# The Right Access Method for Every Situation.

## Bluetooth (BLE)

Provides a hands-free, Seamless Mobile Access System (SMAS)' for ultimate convenience. Fully compatible with both iOS & Android devices

## NFC

Enables simple tap-to-open functionality for fast and intuitive entry. (Android only).

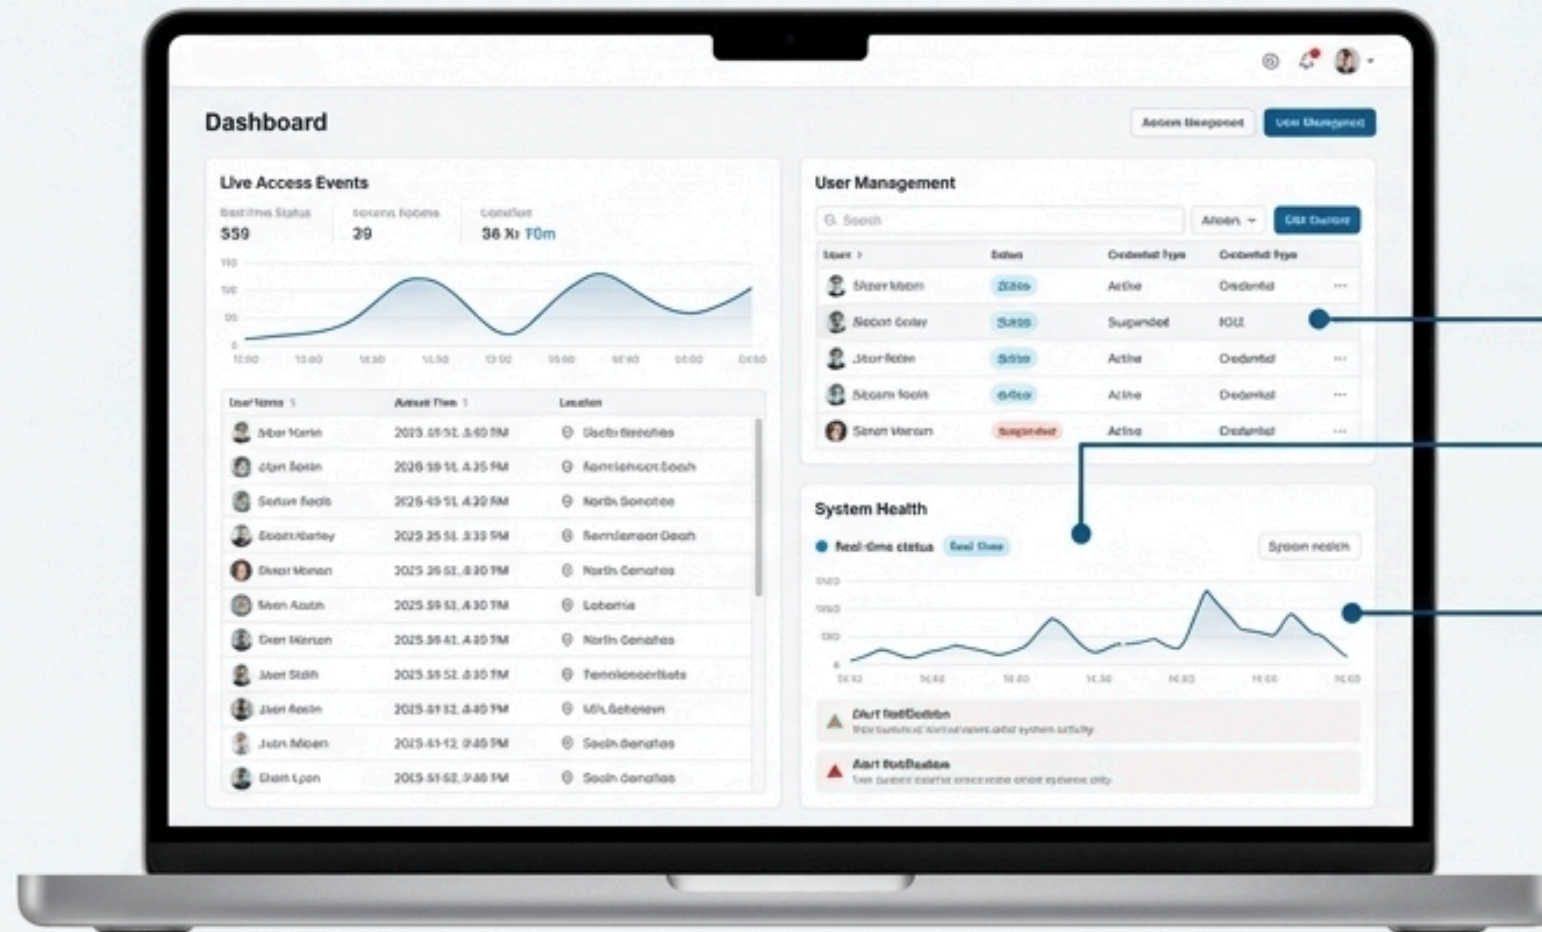

## Dynamic QR Codes

The perfect solution for issuing secure, time-limited access to visitors, guests, and contractors directly to any smartphone.

# Centralized Command, Effortless Control.

The power of mobile credentials is unlocked through our cloud-based management platform. Empower your administrators with real-time tools to streamline operations and enhance security.

## Remote Credential Management

Instantly issue, suspend, or revoke credentials for any user, anywhere in the world.

## Real-Time Monitoring

Gain complete visibility with live access logs and custom reporting.

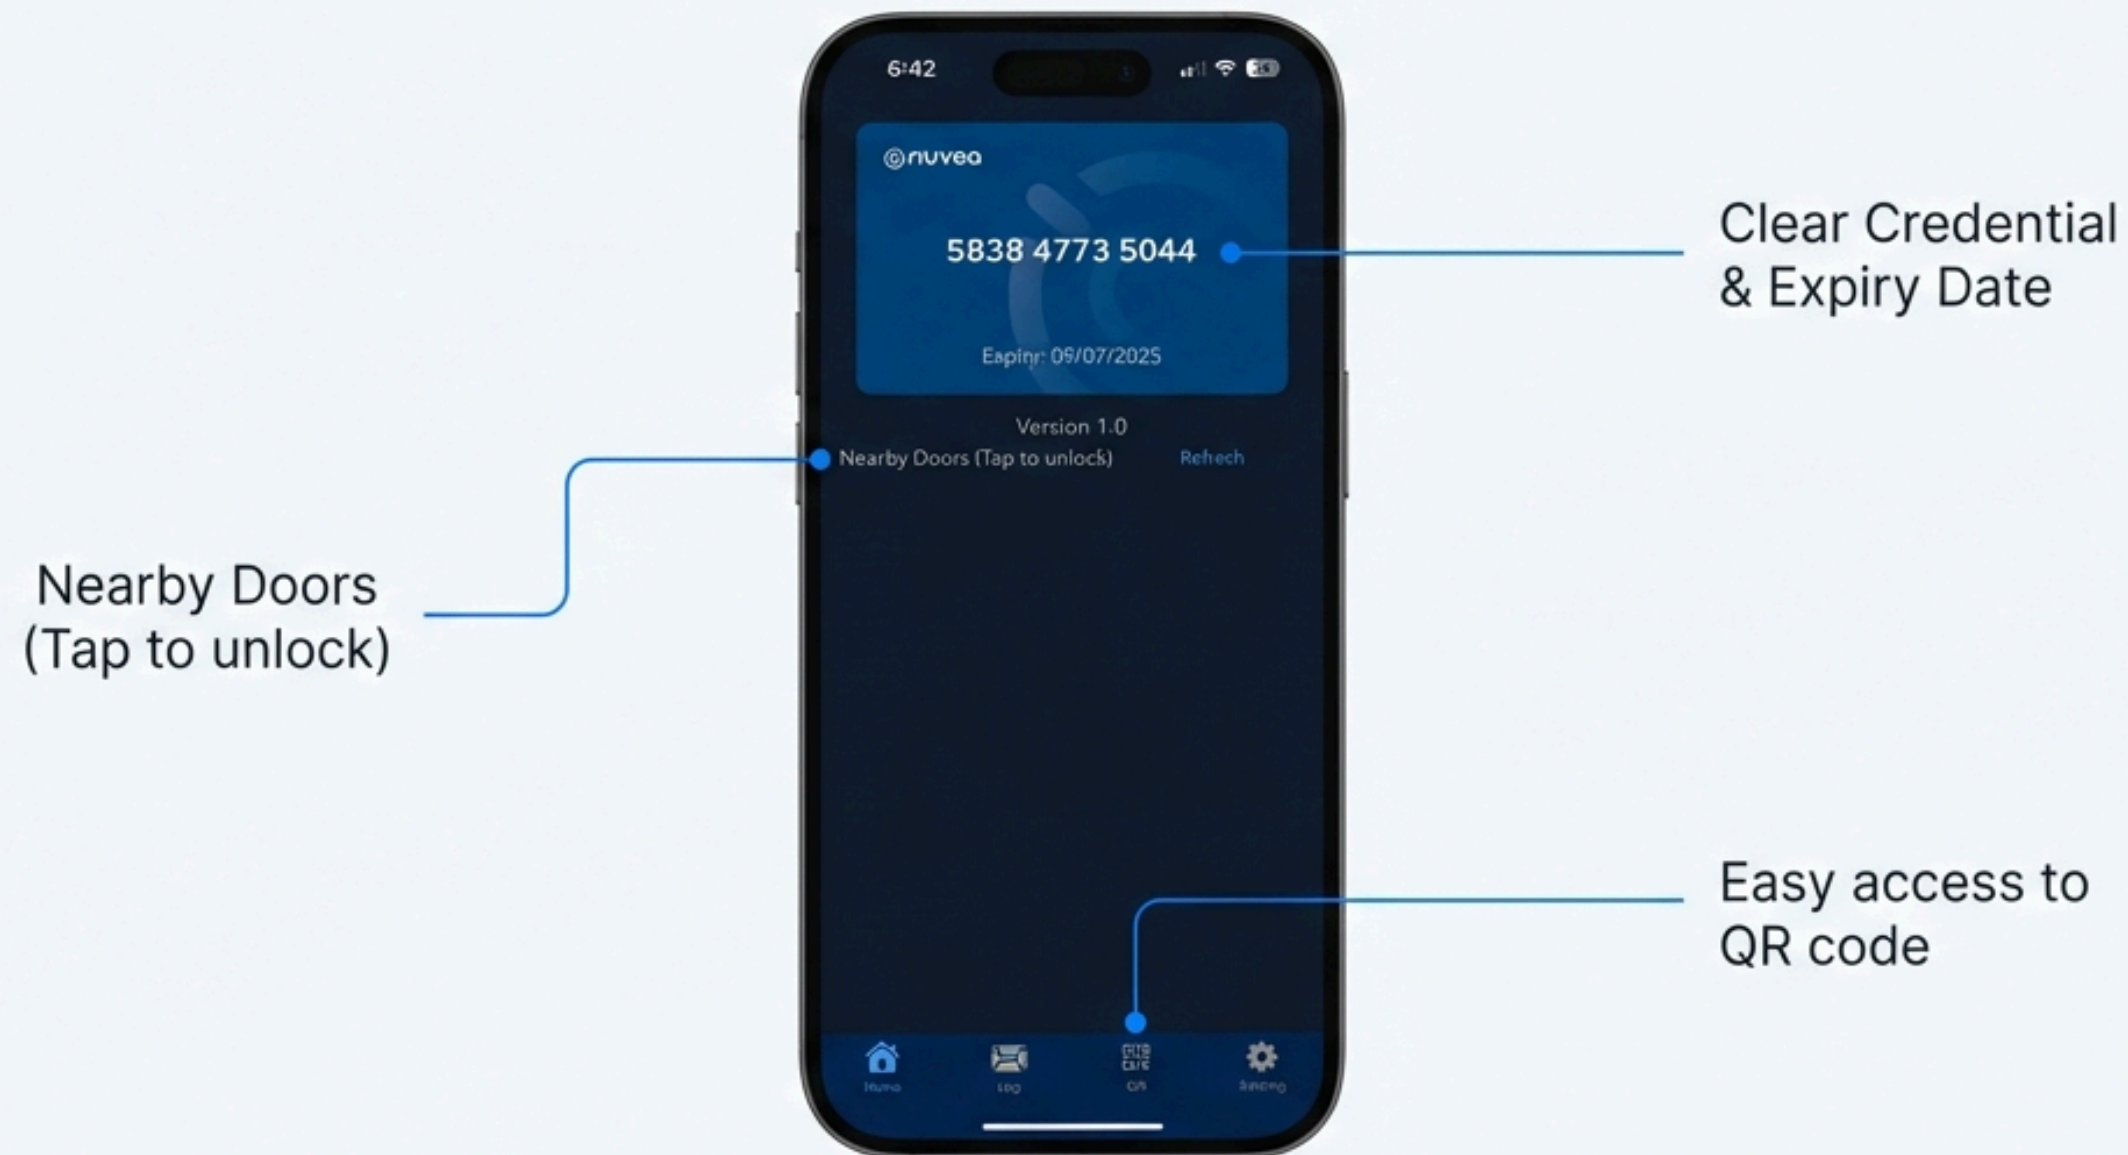

## Streamlined Operations

Drastically reduce the time and cost associated with managing physical credentials.

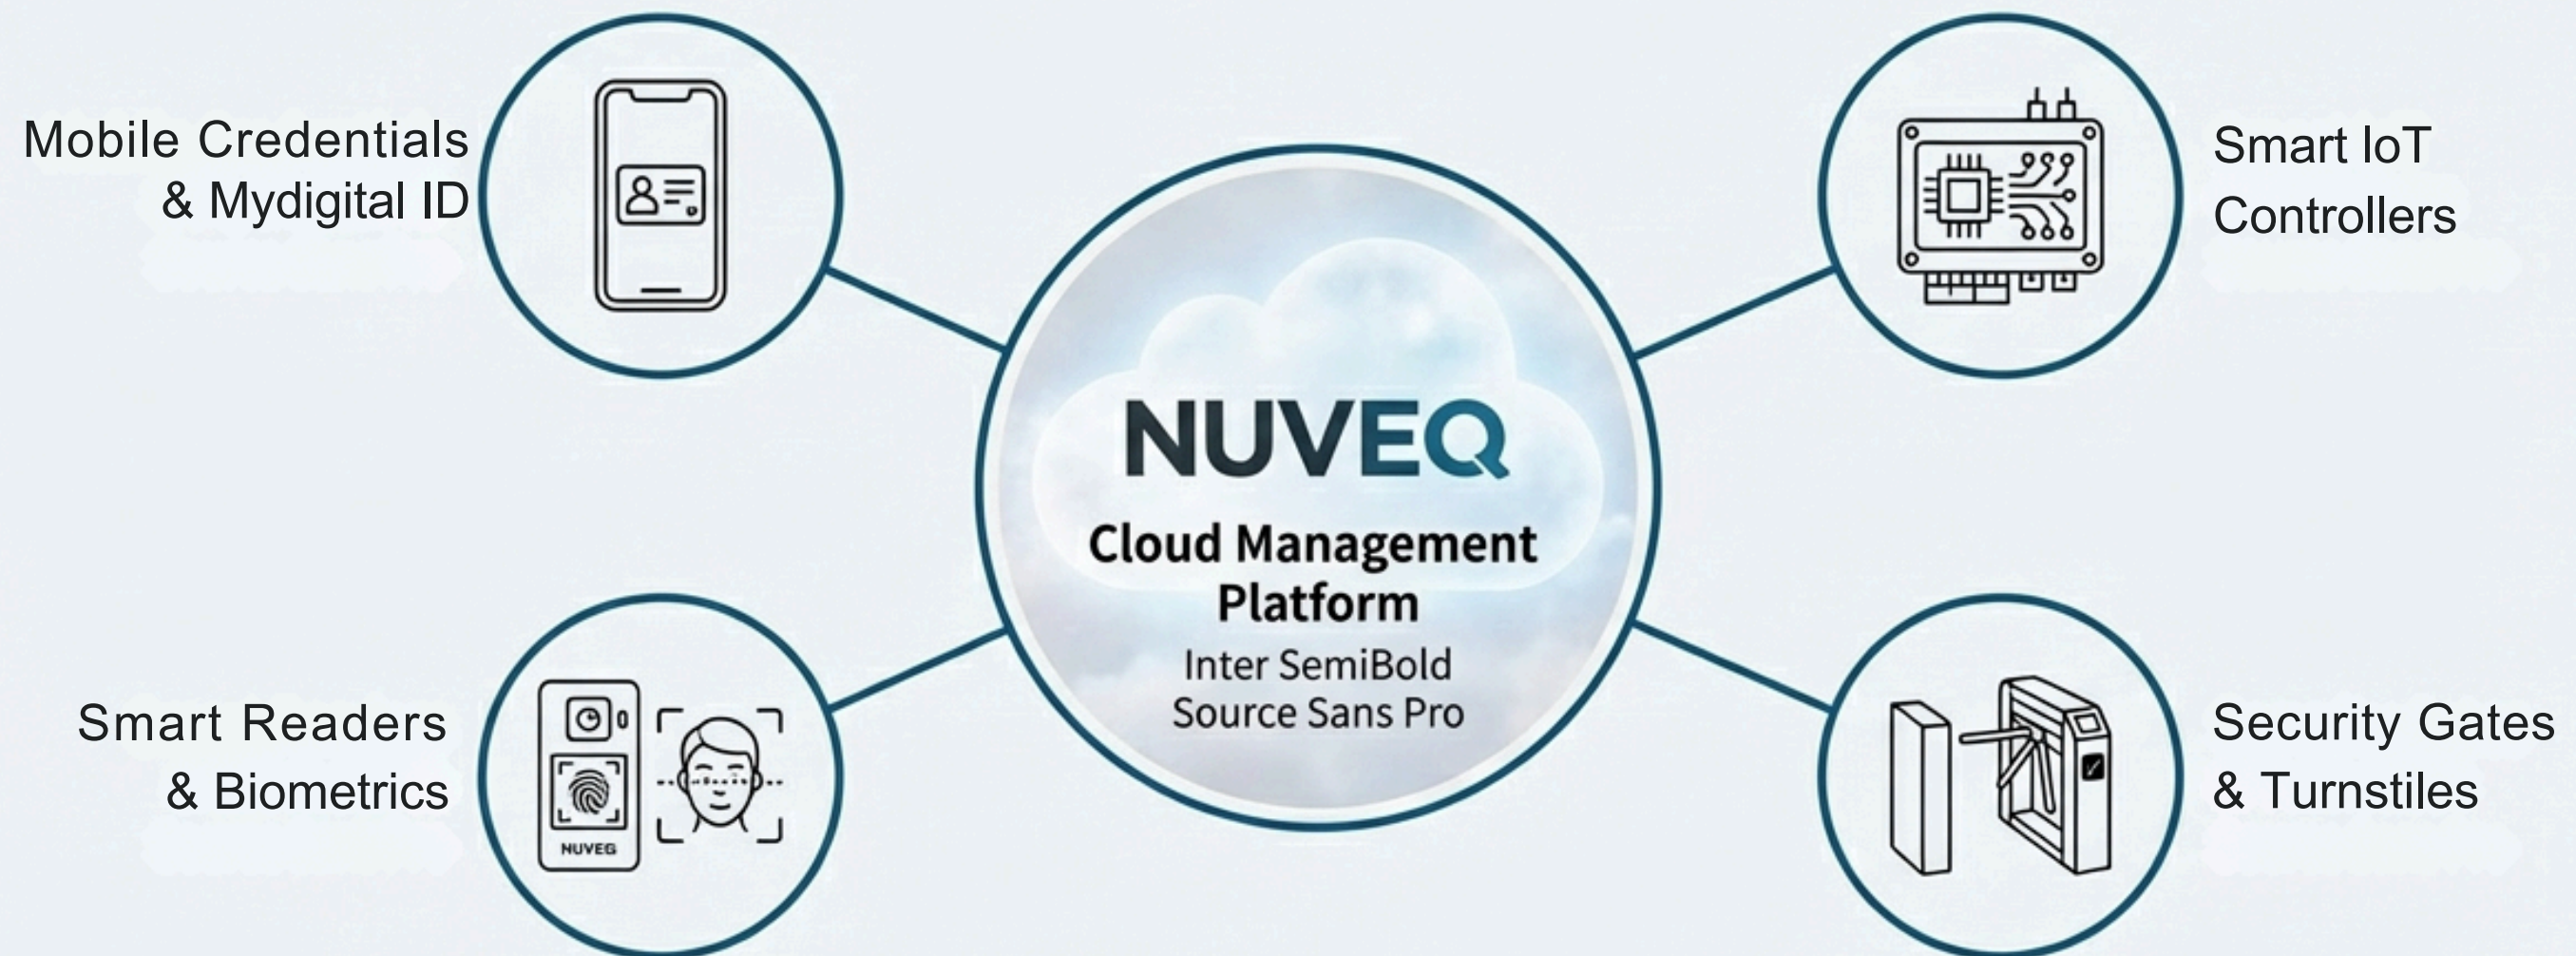

# Designed for Simplicity. Engineered for Security.

The NUVEQ app is intuitive and easy to use, providing a smooth and efficient way for users to manage and use their access credentials.

## Beyond the Credential: The Complete NUVEQ Ecosystem

A unified, end-to-end solution from the cloud to the door, ensuring seamless integration and unmatched reliability.

# Proven Solutions, Tailored for Your Industry

**Commercial  
Buildings**
