

Rethinking Residential Access.

A new standard for security, efficiency, and resident experience.

Traditional access control is holding your property back.

Managing access with yesterday's technology creates constant friction for property managers, security teams, and residents. It's a system defined by complexity, physical limitations, and security gaps.

The TCO & Operational Drain Matrix

The Legacy Paradigm

TCO
(Money)

Constant hardware upgrades, expensive on-site server upkeep, and unpredictable maintenance costs.

Operations
(Time)

Manual Overload. Staff spend countless hours issuing, tracking, and revoking physical credentials. Multi-tower silos duplicate effort.

Risk
(Security)

Lost fobs, poor visitor control, delayed or non-existent audit trails.

The NUVEQ Cloud

Zero on-site servers. Hosted on **Google Cloud.** Predictable SaaS model lowers Total Cost of Ownership.

Unified Control. Issue, revoke, and track credentials globally in seconds from a single internet-connected device.

Instant revocation, remote credential issuance, and unalterable, real-time audit logs.

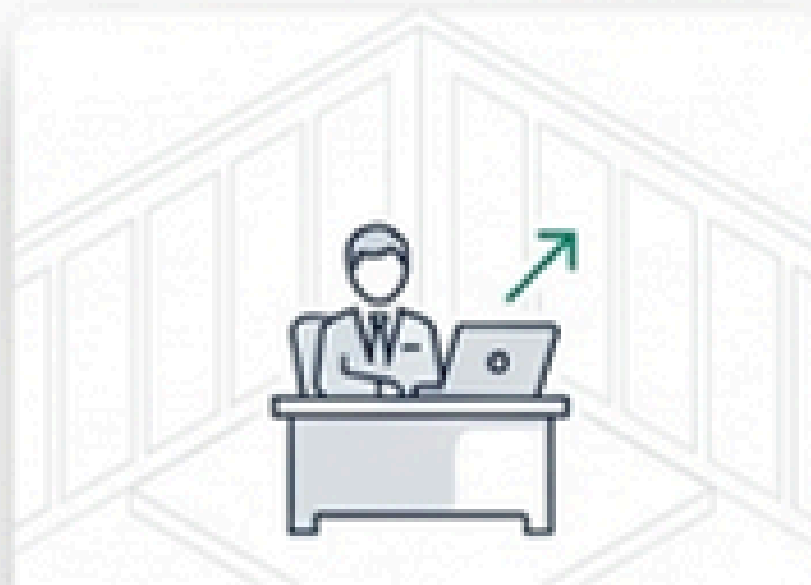

There is a smarter way. Welcome to NUVEQ.

A modern, cloud-based access control platform designed to deliver secure, scalable, and flexible entry management. We leverage IoT technology and robust cloud infrastructure to put you back in control.

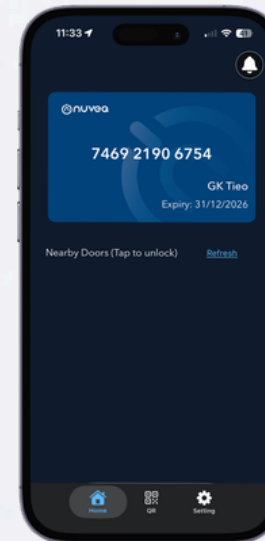

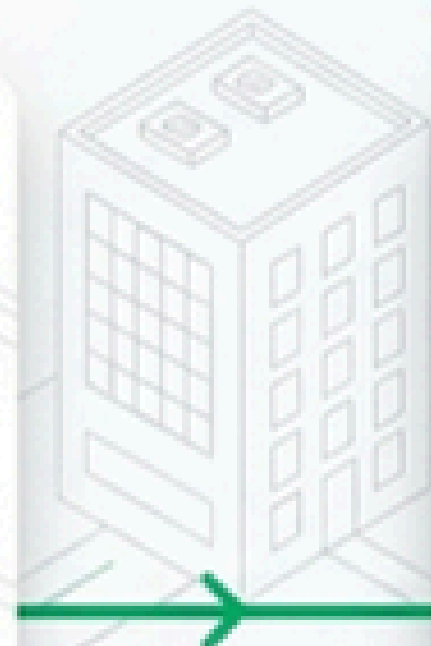

Frictionless Credentialing: Seconds, not minutes.

Remote Issuance

Grant access to new residents, staff, or contractors instantly via the cloud, without ever meeting in person.

The Digital Key

Users seamlessly unlock doors using their smartphone via NFC or BLE technology.

Instant Access

The door unlocks instantly. Access control, simplified.

Transitional Support: Continue to support traditional cards and fobs within the same unified system.

The tangible benefits across your entire property.

Property Teams (Operational Efficiency)

- ✓ Reduced manual credential handling.
- ✓ Centralized control for multi-block developments.
- ✓ Real-time alerts and incident review logs.

Residents (Superior Experience)

- ✓ Frictionless mobile access (NFC/BLE).
- ✓ No more lost fobs or frustrating guest access procedures.
- ✓ Seamless, modern convenience.

Ownership (Lower TCO & Security)

- ✓ Eliminates costly on-premise servers.
- ✓ Reduces maintenance with free, automatic cloud updates.
- ✓ Proactively protects assets and scales instantly.

Seamless, secure access is now in their pocket.

Move beyond physical keys and cards. NUVEQ empowers you to issue and manage digital credentials remotely, creating a frictionless experience for everyone.

Mobile Access

Residents use their smartphones (NFC/BLE) for frictionless, easy entry.

Unified & Flexible

Continue to support traditional cards and fobs within the same unified system.

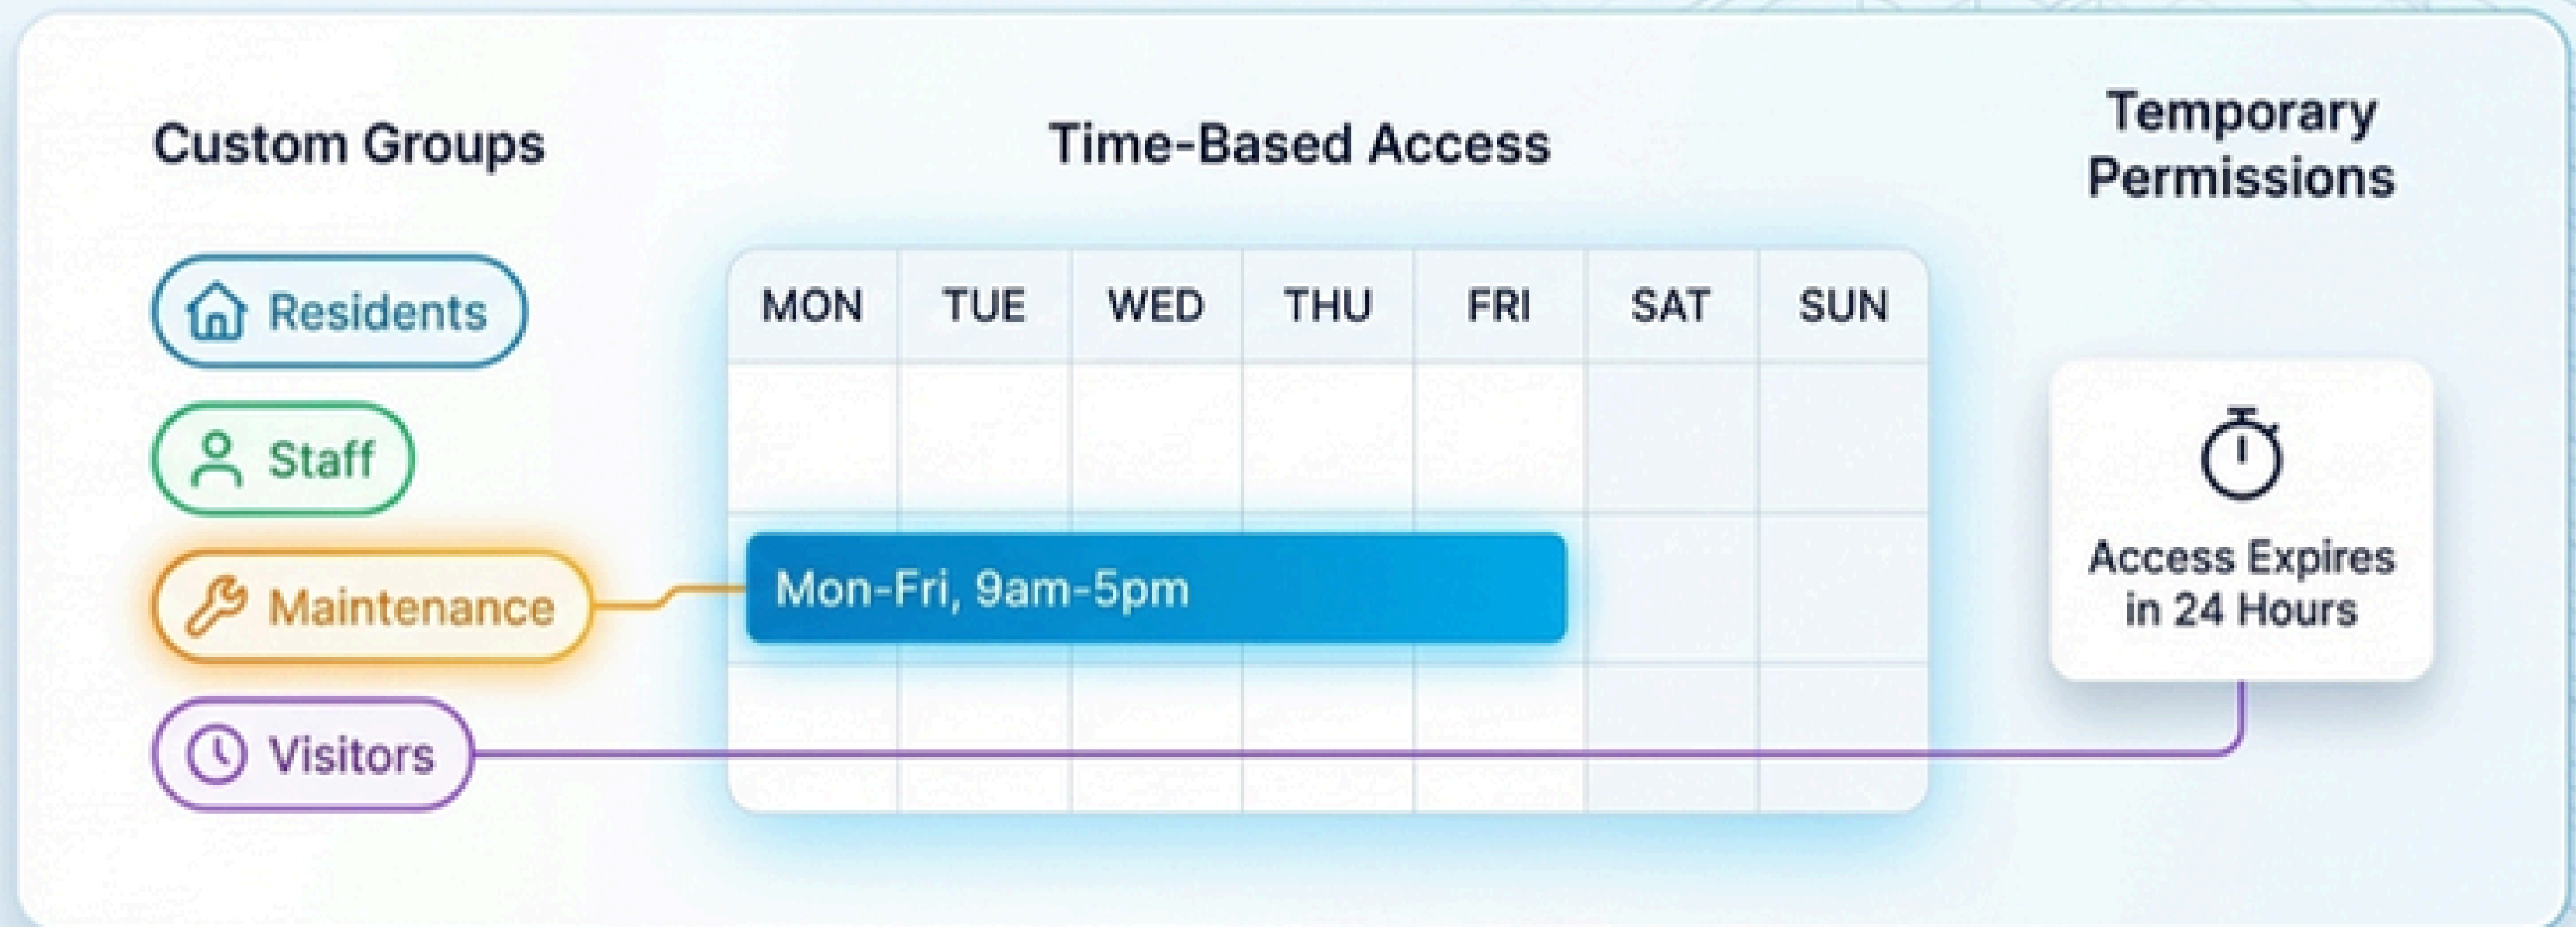

Remote Issuance

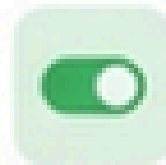

Grant access to new residents, staff, or contractors remotely without ever meeting in person.

Define who goes where, and when.

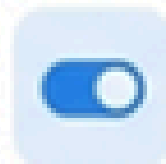

NUVEQ's role-based permissions create a truly intelligent access environment, ensuring the right people have the right access at the right times.

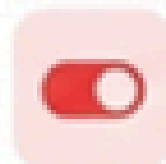

Complete visibility with real-time monitoring.

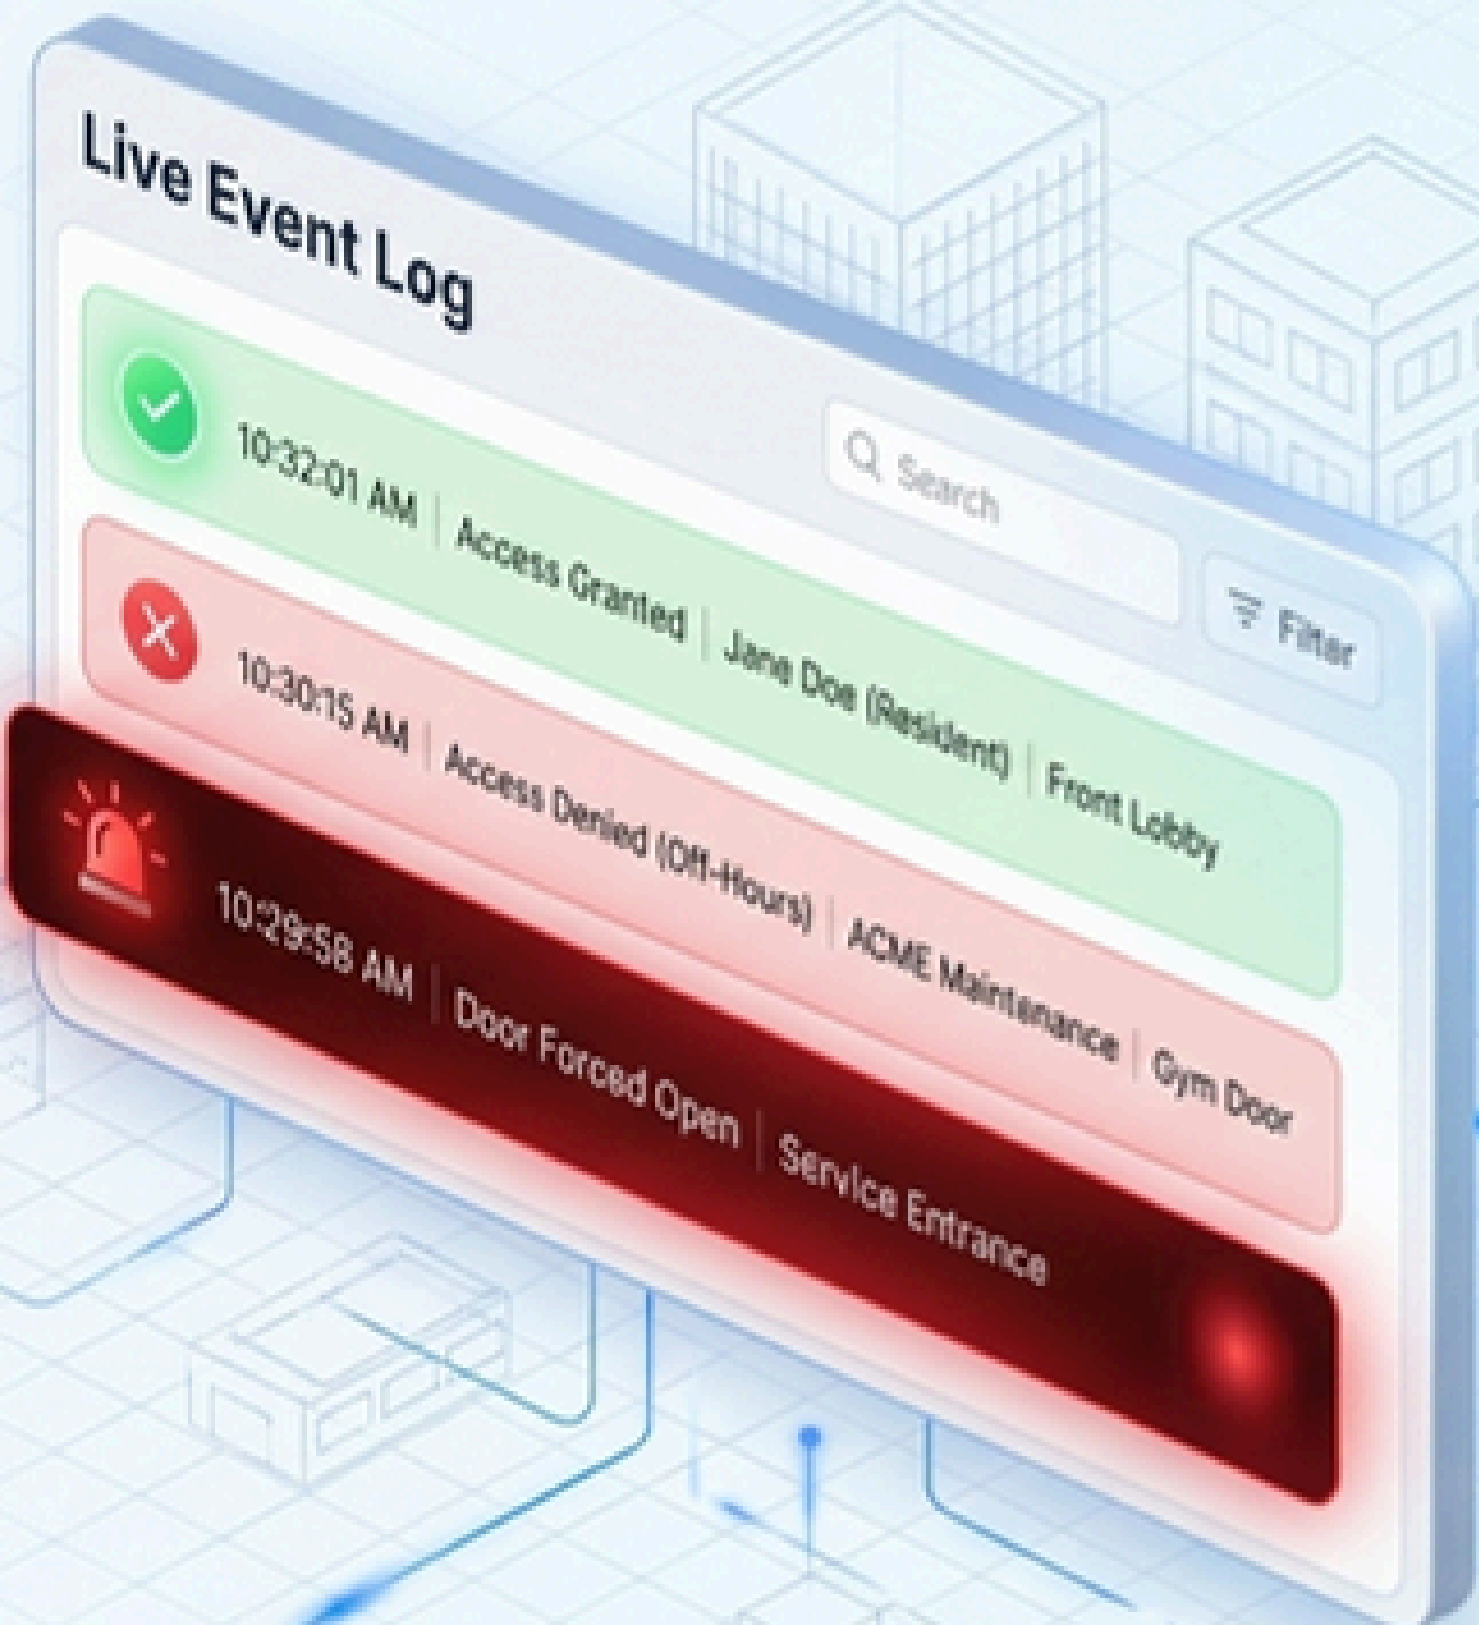

Instant Logging: Every entry, exit, and denial is tracked in real-time.

Unalterable Audit Trails: Secure logs to support compliance and incident investigations.

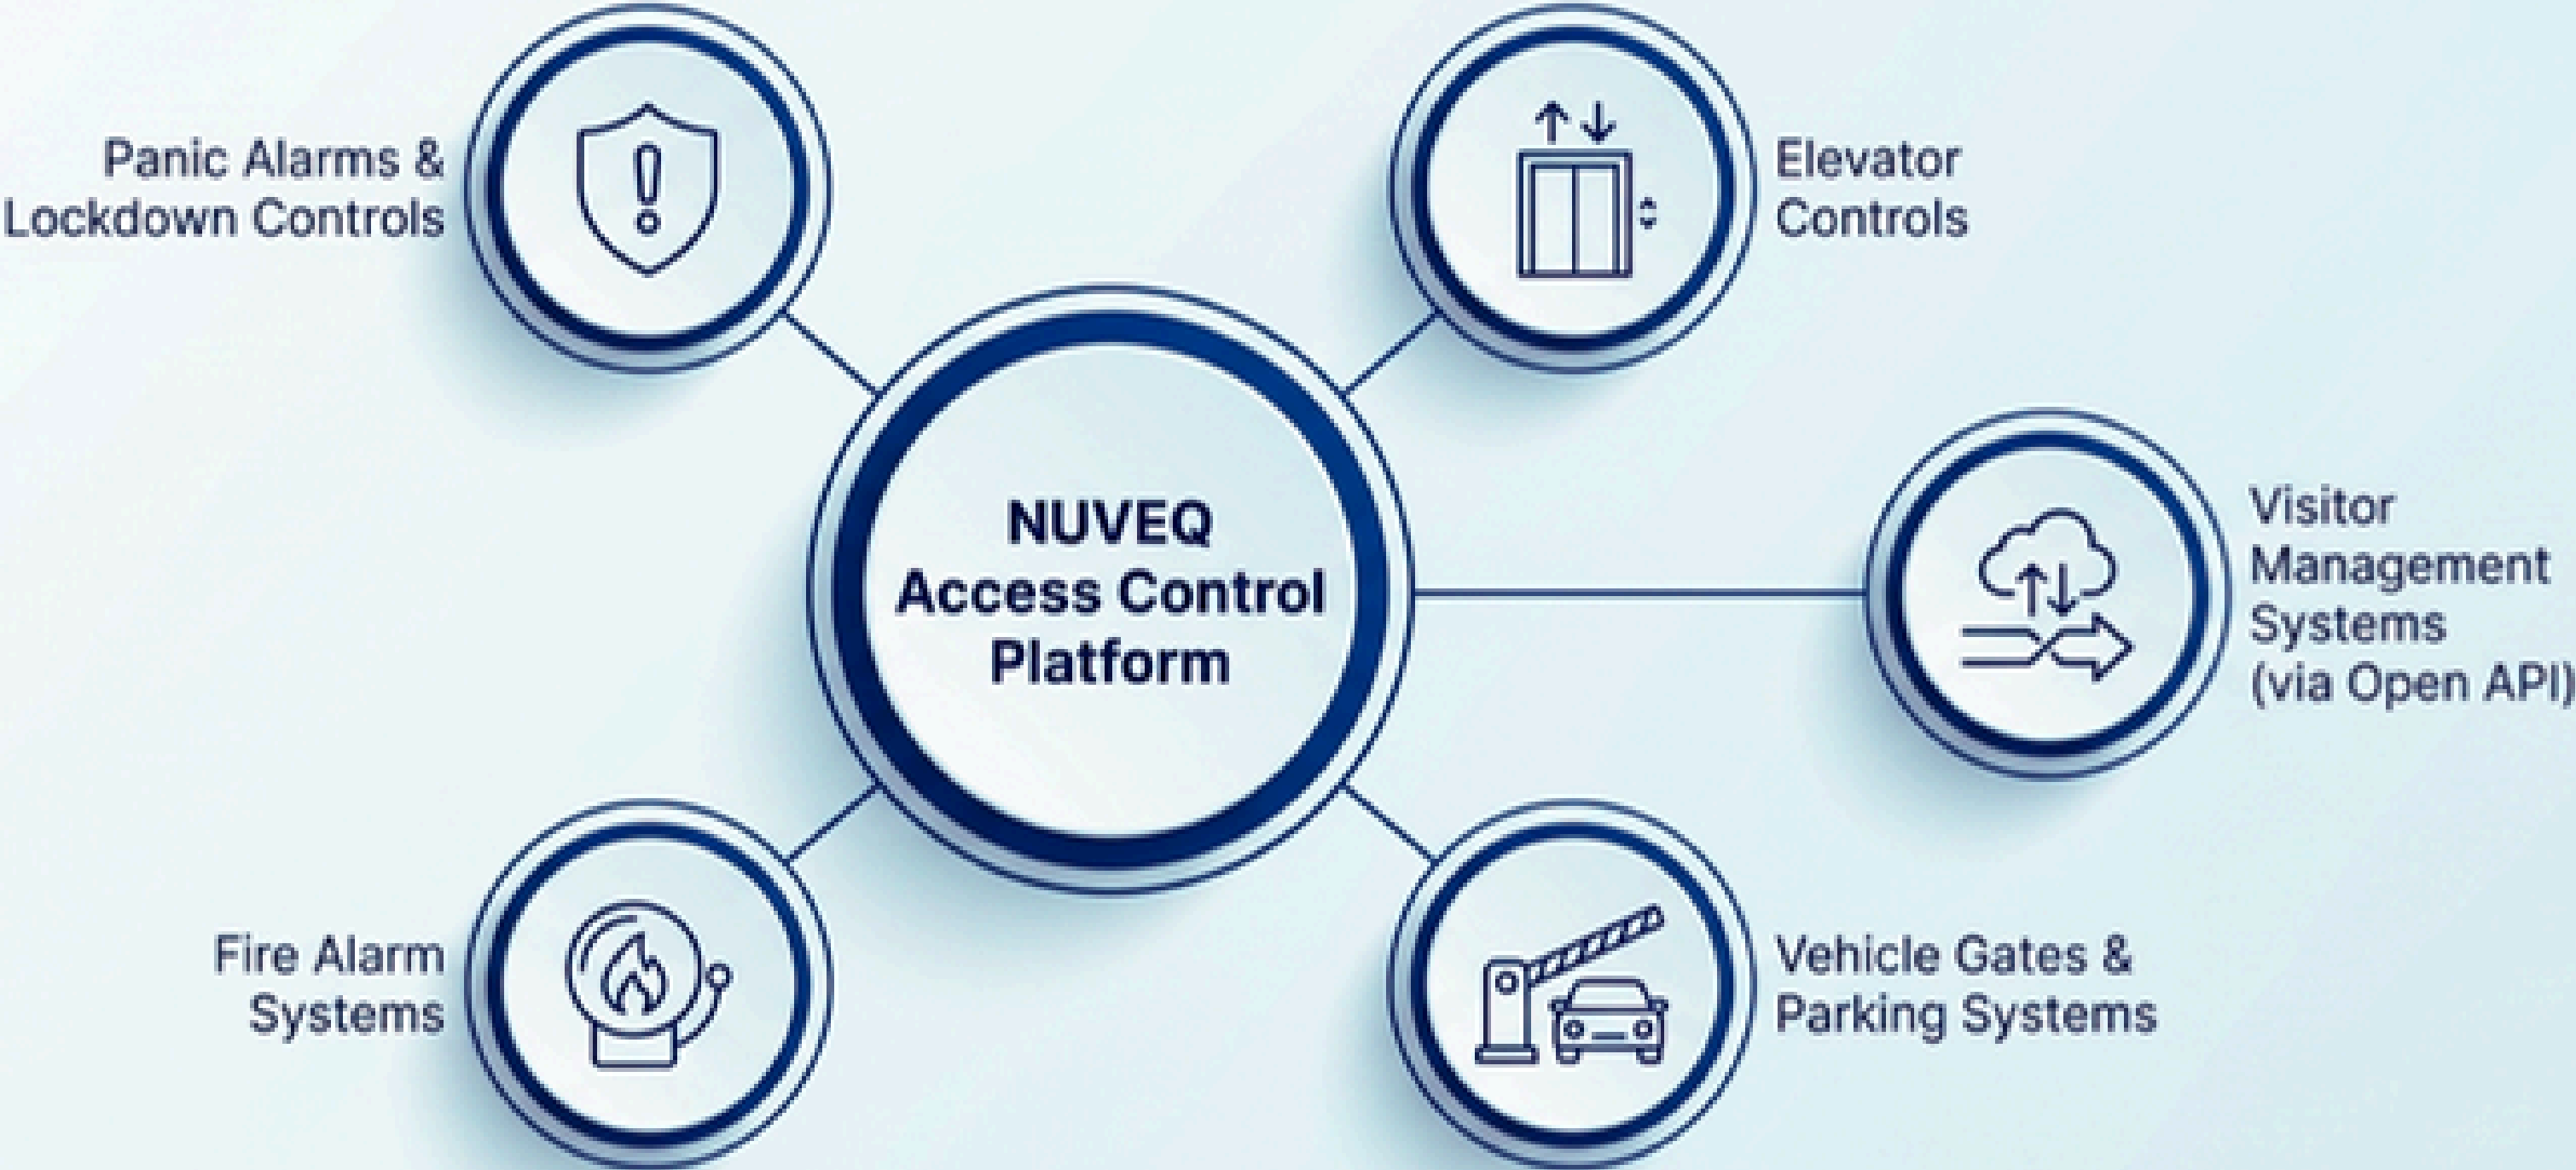

Critical Alerts: Instant mobile notifications for forced entries or propped doors.

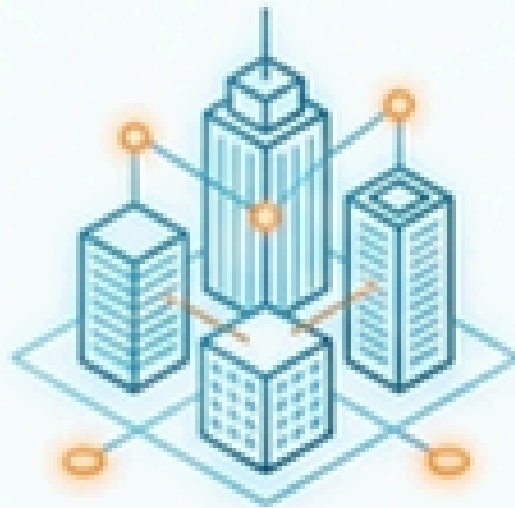

Secure every entry point, from the perimeter to the penthouse.

Unify your building's safety into a single, intelligent ecosystem.

A future-proof platform engineered for resilience.

Scales With Your Organization

Easily add new users, doors, or entire branches in minutes without costly infrastructure upgrades. Grows from a single office to a global network.

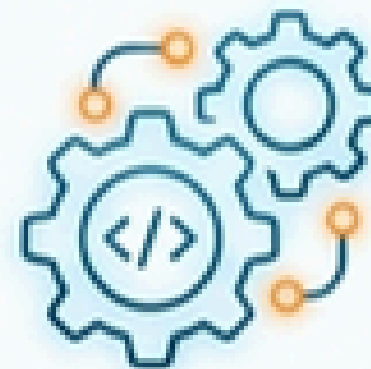

Continuous OTA Updates

Limitless over-the-air updates ensure your system is always equipped with the latest features and security patches without manual intervention.

Guaranteed Uptime

Offline Capability ensures the system continues to function and secure premises even during a network failure.

Seamless API Integration

Connect with HRMS and data analytics tools to enhance efficiency.

The NUVEQ Standard: Secure, Scalable, and Simple

Modernize your property with a single solution that delivers on every front.

Cloud-Native Power

Unmatched flexibility and control with zero on-site IT overhead.

Unified Credentials

Manage mobile, card, and fob access from one place, anytime, anywhere.

A Fully Integrated Hub

Connect access control with your building's core safety systems for a comprehensive security posture.

The tangible benefits for your property and bottom line.

Operational Efficiency

Reduced manual credential handling; centralized control frees up property management staff.

Efficiency Gain

Superior Resident Experience

Attract and retain residents with the modern convenience of frictionless mobile access.

Retention Boost

Lower Total Cost of Ownership

A smarter long-term investment that eliminates on-premise servers and reduces IT maintenance.

Cost Savings

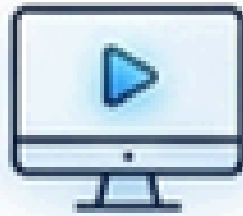

Enhanced Security & Compliance

Proactively protect assets with detailed, unalterable logs and real-time remote alerts.

Risk Mitigation

Take the First Step to a More Secure and Efficient Portfolio

Secure your buildings and streamline operations with NUVEQ. Discover how our cloud-based system can transform your properties without service interruptions.
