The Future of Access is Verified.

Seamless, Secure Visitor Management Powered by Malaysia's MyDigital ID.

Transform your facility check-ins with verified digital identity authentication, automated access control, and real-time visibility — all in one cloud platform.

Your Front Desk is Working Harder, Not Smarter.

Security Gaps: Risk of impersonation and unauthorized entry with unverified IDs.
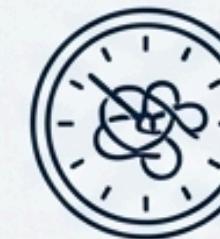

Operational Drag: Long queues and manual paperwork create poor first impressions and drain resources.

Compliance Headaches: Incomplete, error-prone manual logs make audits difficult and create risk. Incomplete, error-prone manual logs make audits difficult and create risk.
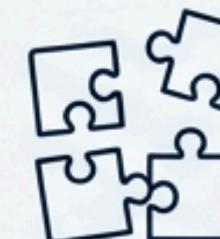

Fragmented Systems: Disconnected security tools lead to blind spots and slow response times. Disconnected security tools lead to blind spots and slow response times.

NUVEQ

It's Time for Access Control to Catch Up with Identity
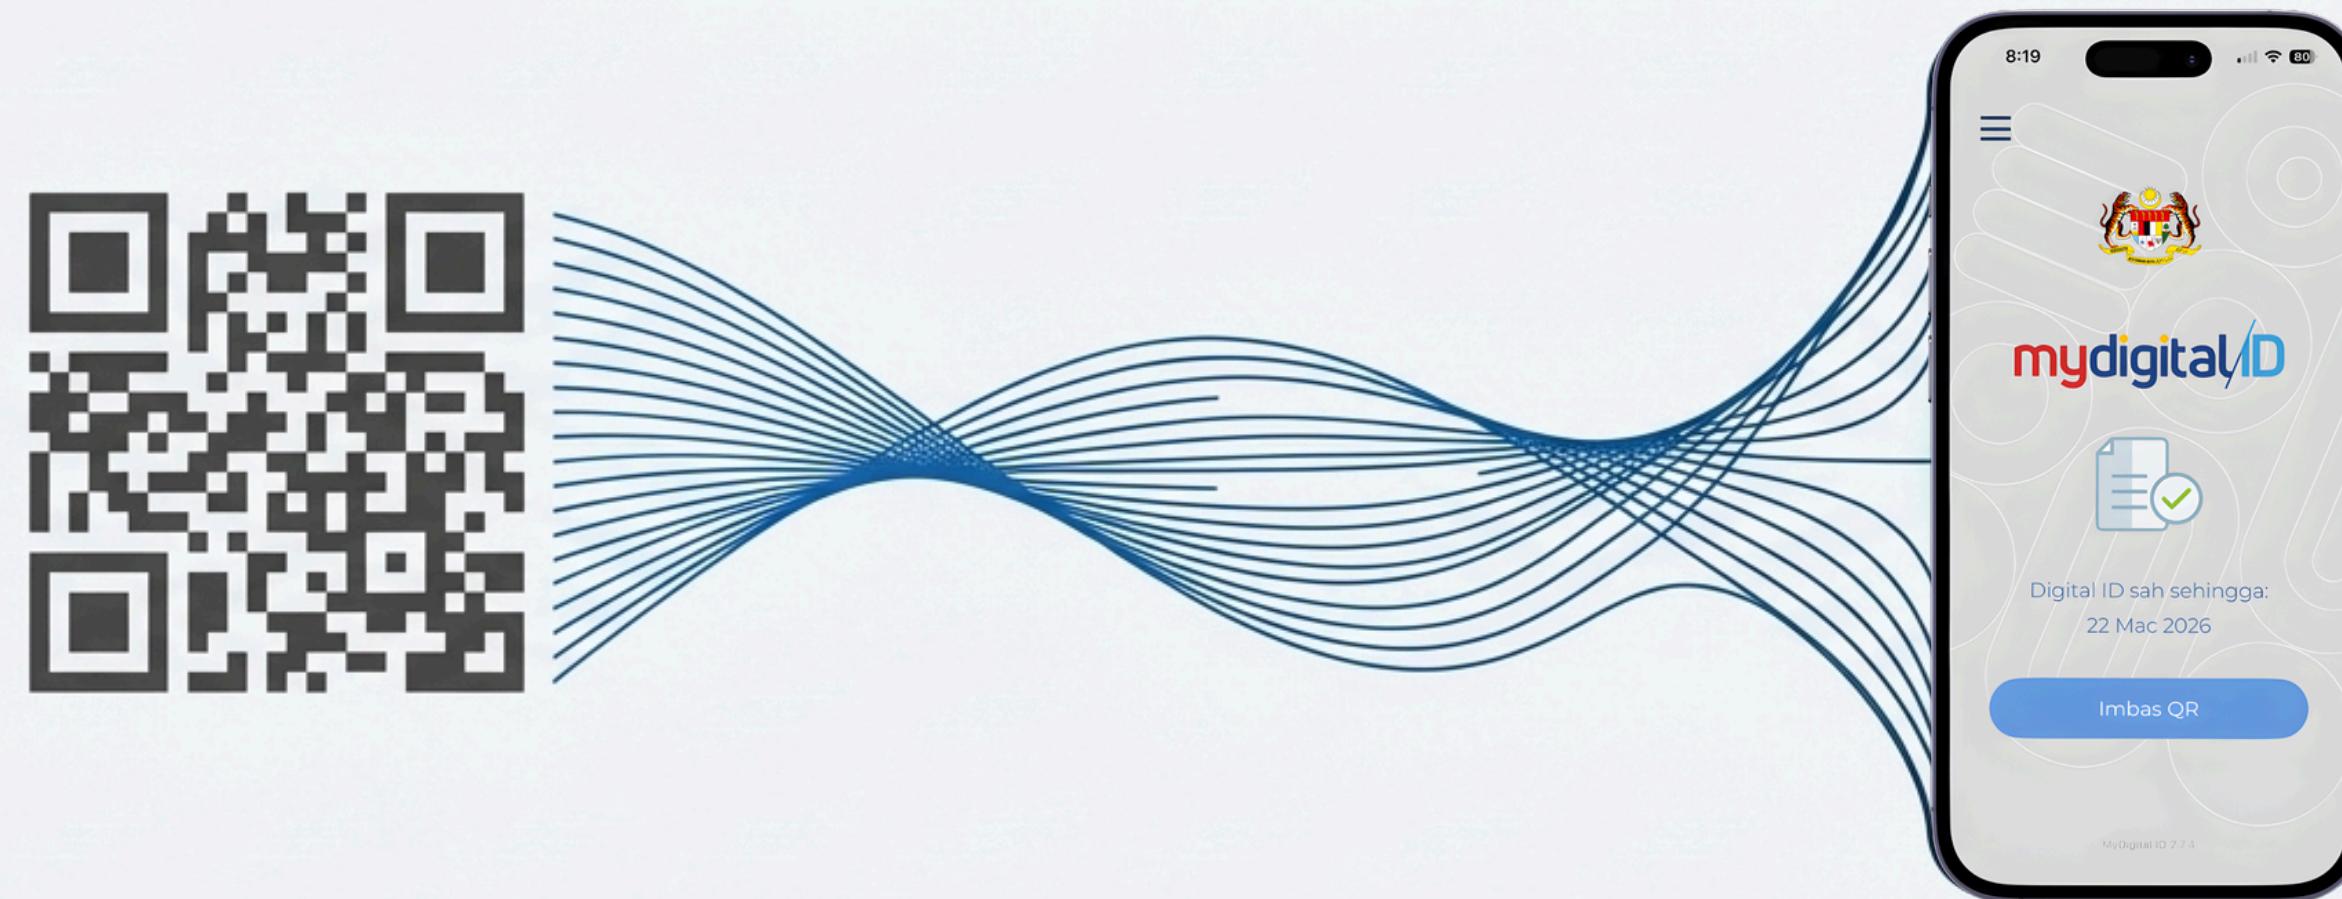

Nuveq integrates Malaysia's national digital identity system directly into your access control ecosystem, turning every visitor's verified identity into their key.

Verified Identity. | Frictionless Access. | Enhanced Compliance.

Verified Digital Identity Authentication

Through direct integration with MyDigital ID, every visitor's identity is verified against a trusted national digital identity system. This significantly reduces risks of impersonation or unauthorized entry with secure, tamper-proof, and government-recognized credentials.

Faster, Frictionless Check-Ins

Visitors scan a QR code and use their MyDigital ID to authenticate and check in instantly. Eliminate waiting lines and paperwork to improve visitor flow and enhance operational efficiency.

Enhanced Compliance & Audit Readiness

All visitor records are securely stored and linked to verified MyDigital ID data, ensuring a comprehensive digital audit trail. Automatically generate accurate logs and stay compliant effortlessly.

NUVEQ

The Entire Visitor Journey, Perfected in Three Steps.

01. Scan & Register

02. Verify Identity

03. Access Granted
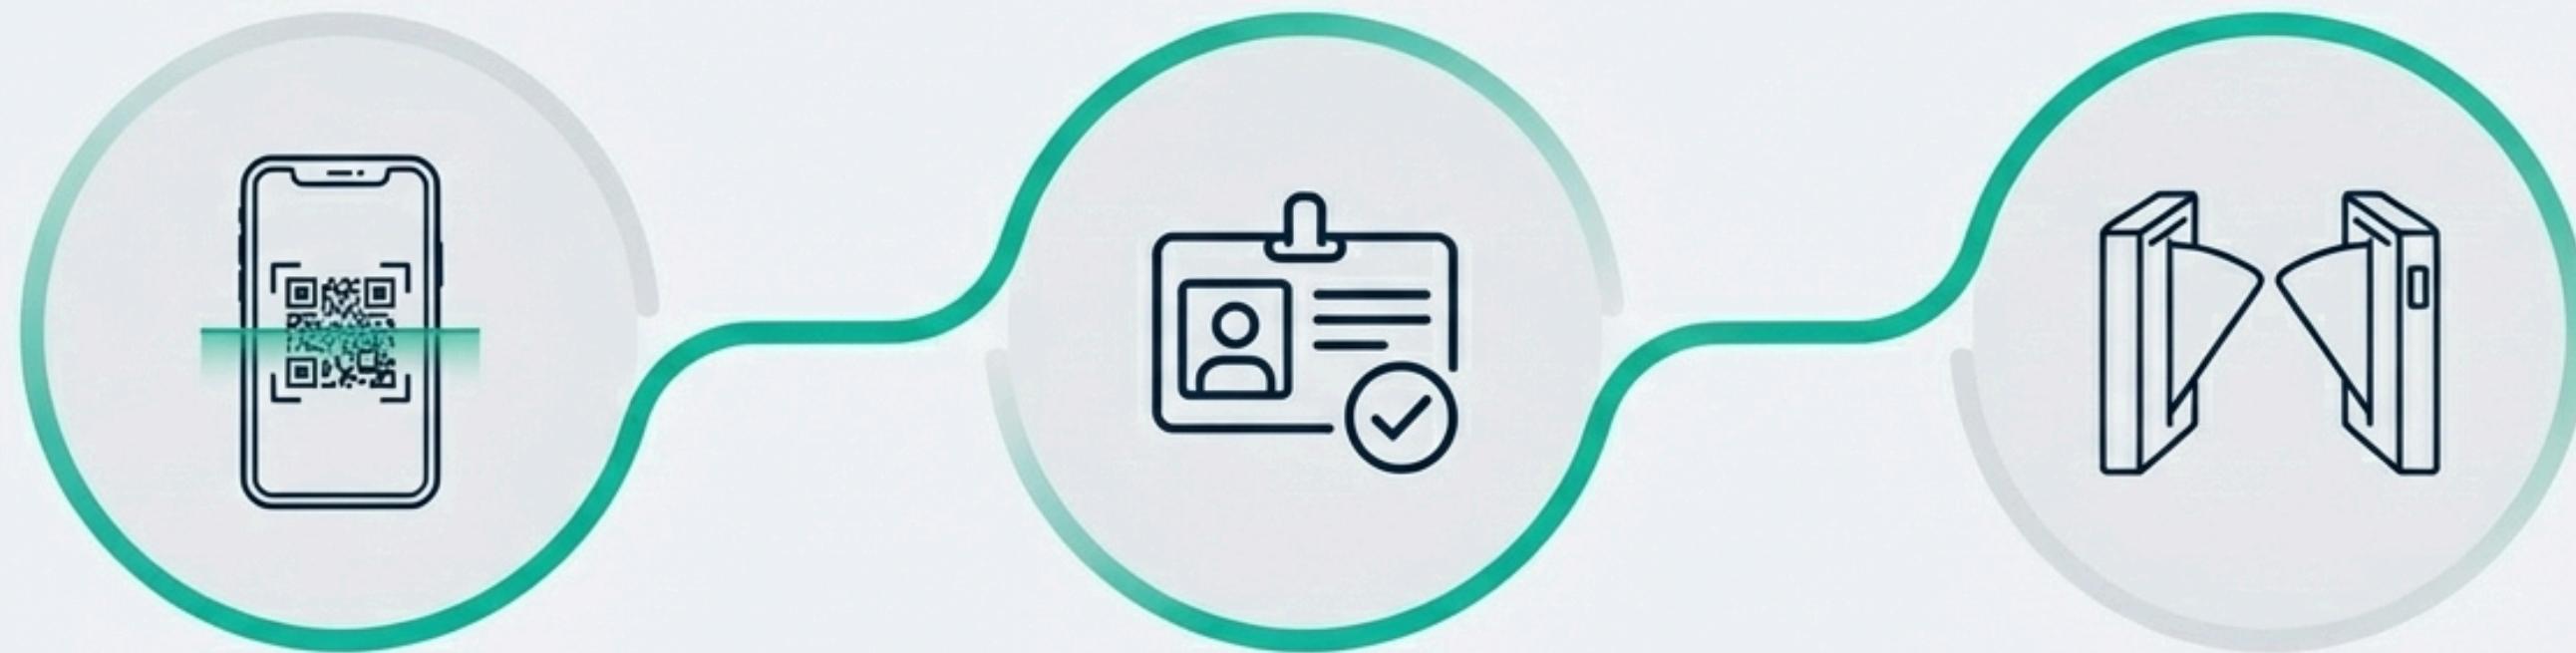

From Arrival to Authentication in Seconds.

Verify with MyDigital ID

01. Self-Registration via QR Code

Visitors scan a unique QR code at your entry point to begin registration on their own device. This contactless process reduces queue times and eliminates manual form-filling.

02. Identity Verified via MyDigital ID

The visitor's identity is verified through MyDigital ID, Malaysia's trusted national digital identity platform. This ensures secure, government-recognized authentication.

ⓝ nuveq

A Digital Pass is Generated for Seamless Entry.
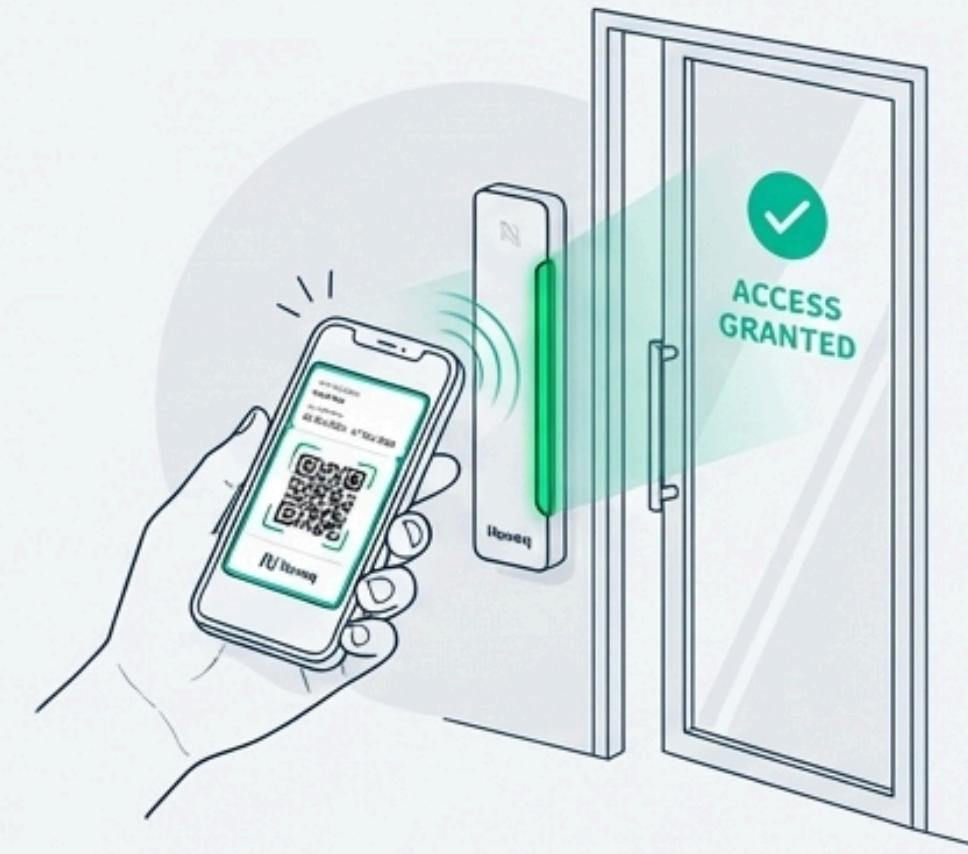

03. Auto-Generated Digital Credential

Source Sans Pro SemiBold, Primary Blue

After successful verification, the Nuveq Cloud platform automatically generates and sends a digital visitor pass or temporary QR credential directly to the visitor's device.

04. Access Granted Through Integrated Hardware

Source Sans Pro SemiBold, Primary Blue

The visitor presents their credential to a Nuveq turnstile or reader. The system verifies it in real-time, granting entry without staff intervention.

# The Power Behind the Welcome: A Unified Cloud Platform.

Global Management:
Manage multiple buildings and sites from a single, unified dashboard.

Always Up-to-Date:
Benefit from limitless updates and new features delivered instantly.

Nuveq Cloud Platform
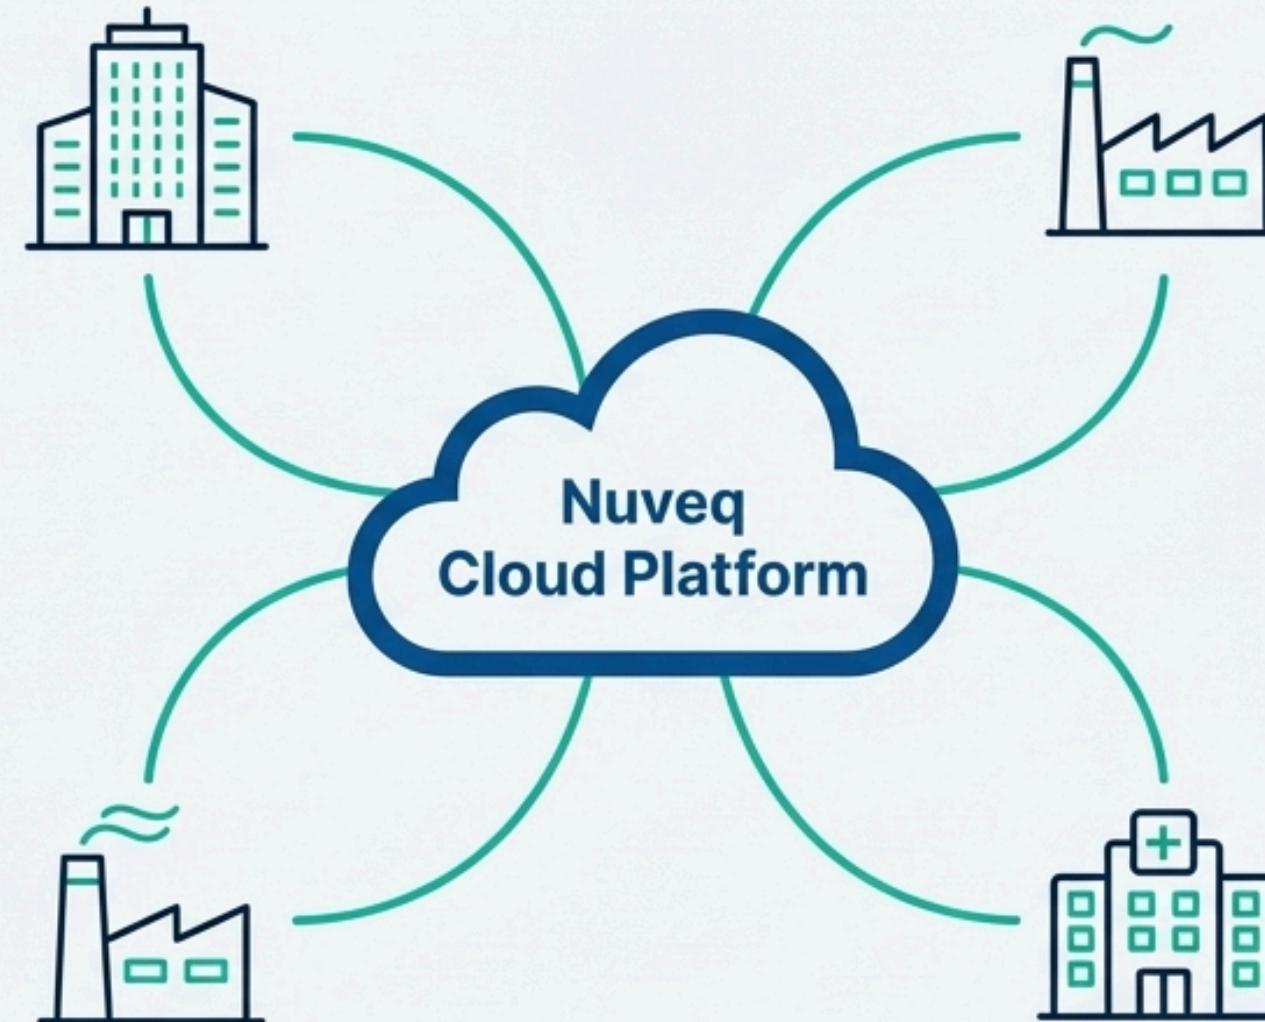

Scalable & Cost-Effective:
No on-premise servers needed. Our cloud infrastructure scales with your needs.

Ultra-Secure Foundation:
Built on the **Google ULTRA SECURE Cloud Platform** for unparalleled reliability and data protection.

NUVEQ

Advanced Features for Granular Control and Uncompromising Security

Access Groups & Roles
Define precise permissions for different user types.
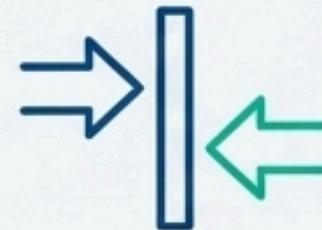

Anti-Passback
Prevent credential sharing by ensuring entry/exit sequence.
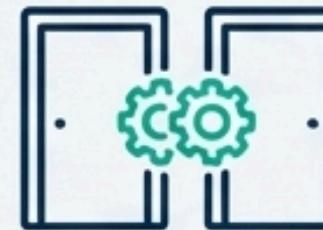

Door Interlocking
Create secure man-traps for high-security zones.
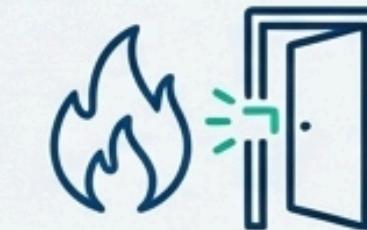

Fire Alarm Integration
Automatically unlock doors in case of a fire alarm.

Emergency Lockdown
Secure the entire facility with a single command.

Emergency Mustering
Account for all personnel during an evacuation.

Intrusion Alerts
Receive real-time notifications of unauthorized access attempts.

API Integration
Connect Nuveq with your other business-critical systems.
