Is Your Access Control System Holding You Back?

Traditional security systems are built on an outdated foundation. They rely on expensive on-site servers, complex wiring, and constant manual maintenance.

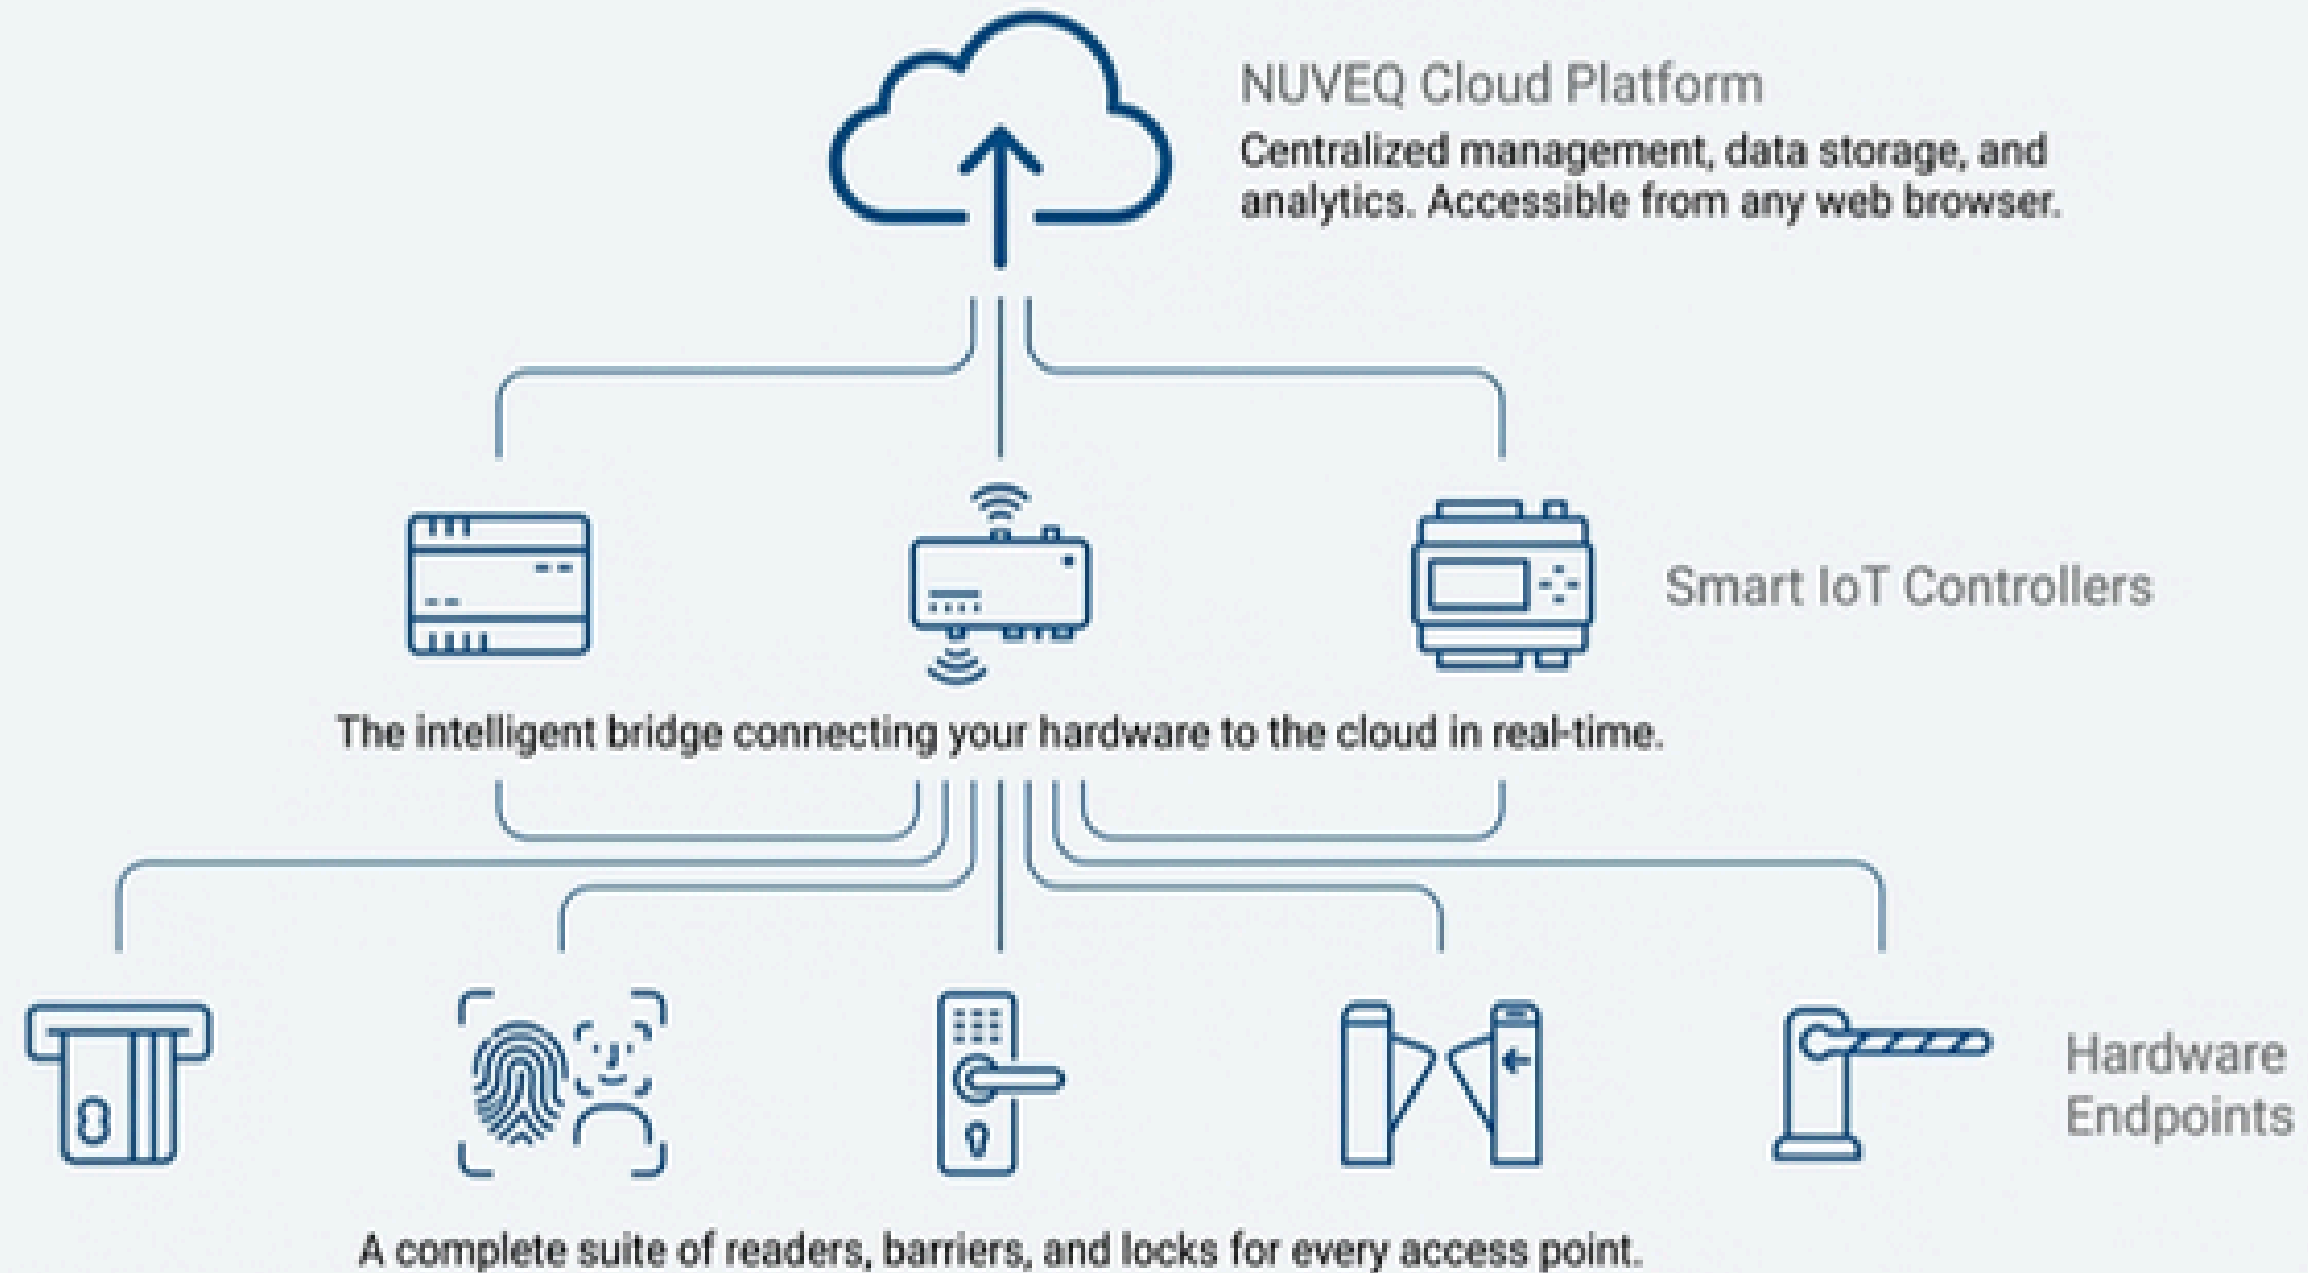

This creates operational bottlenecks, limits scalability, and leaves you vulnerable in a connected world.

Welcome to Access Control as a Service (ACaaS).

Nuveq replaces outdated systems with a streamlined, maintenance-free platform accessible from anywhere. Eliminate the burden of managing on-site servers and software updates. Enjoy automatic updates, lower costs, and greater reliability so you can focus on security, not servers.

The NUVEQ Ecosystem: Intelligent Security from Cloud to Door

Your Central Command for Global Access.

Manage users, permissions, and locations from a single, intuitive dashboard. NUVEQ's cloud platform provides real-time monitoring and reporting, empowering you with complete oversight of your facilities, no matter where you are.

Cloud-based Management Platform

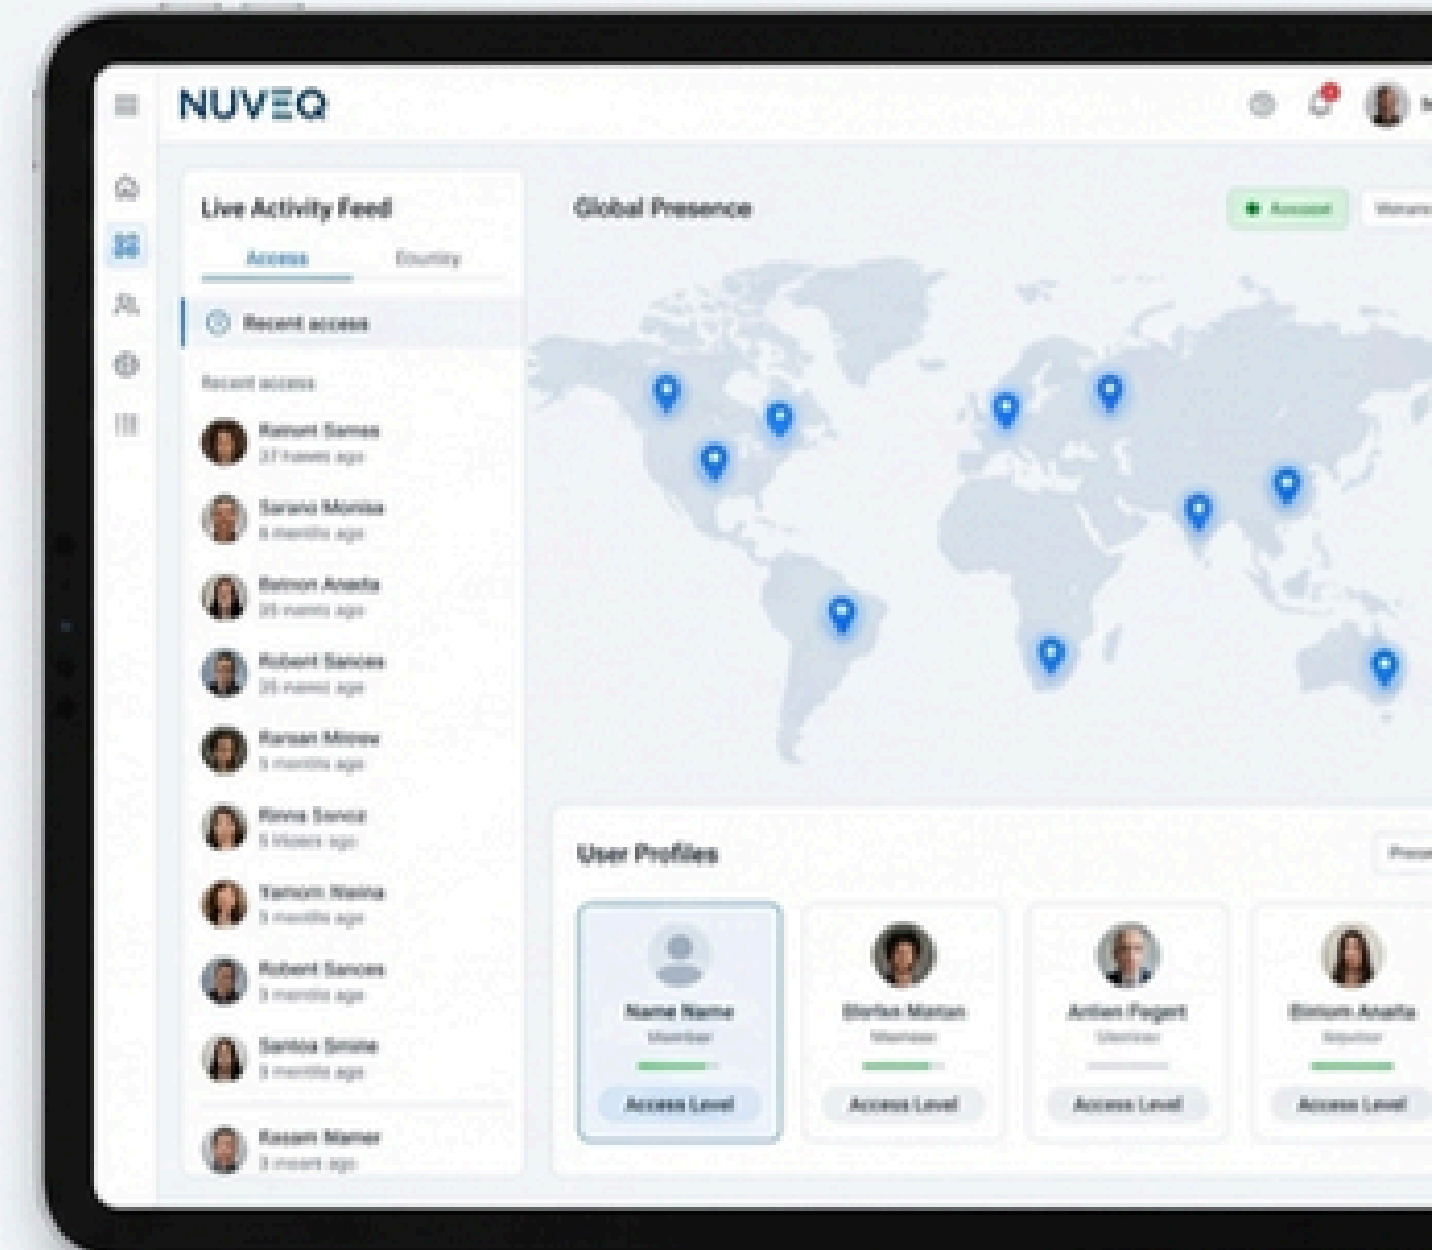

Cloud-based Property Management System

Mobile Credentials

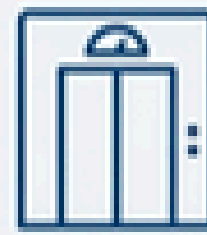

The Intelligent Link Between Your Assets and the Cloud.

Our Smart IoT Controllers are the powerhouse of the NUVEQ system. Each module is purpose-built to bring cloud intelligence to every aspect of your physical security infrastructure, ensuring reliable, real-time communication and control.

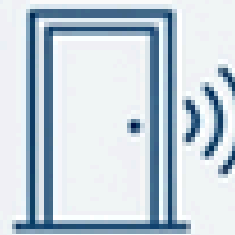

IoT Access Control System

IoT Elevator Access System

IoT Vehicle Access Control & ANPR

IoT Door Monitoring System

IoT Panic Alarm System

IoT Server Rack Lock

A Complete Suite of Hardware for Every Entry Point

From sleek biometric readers to rugged industrial gates, NUVEQ offers a full range of high-performance hardware to secure any environment. All devices are seamlessly integrated into our cloud ecosystem.

Readers & Credentials

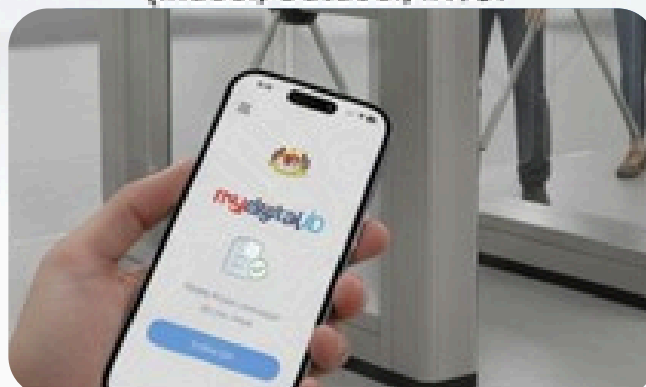

Multi-format BLE/NFC/QR Reader

AI Biometrics Recognition Terminals
(Indoor, Outdoor, IK10)

Access Barrier Gate (Folding & Fence Arm)

Turnstiles (Swing, Full Height, Tripod, Portable)

Future-Proof Your Security With a System That Grows With You

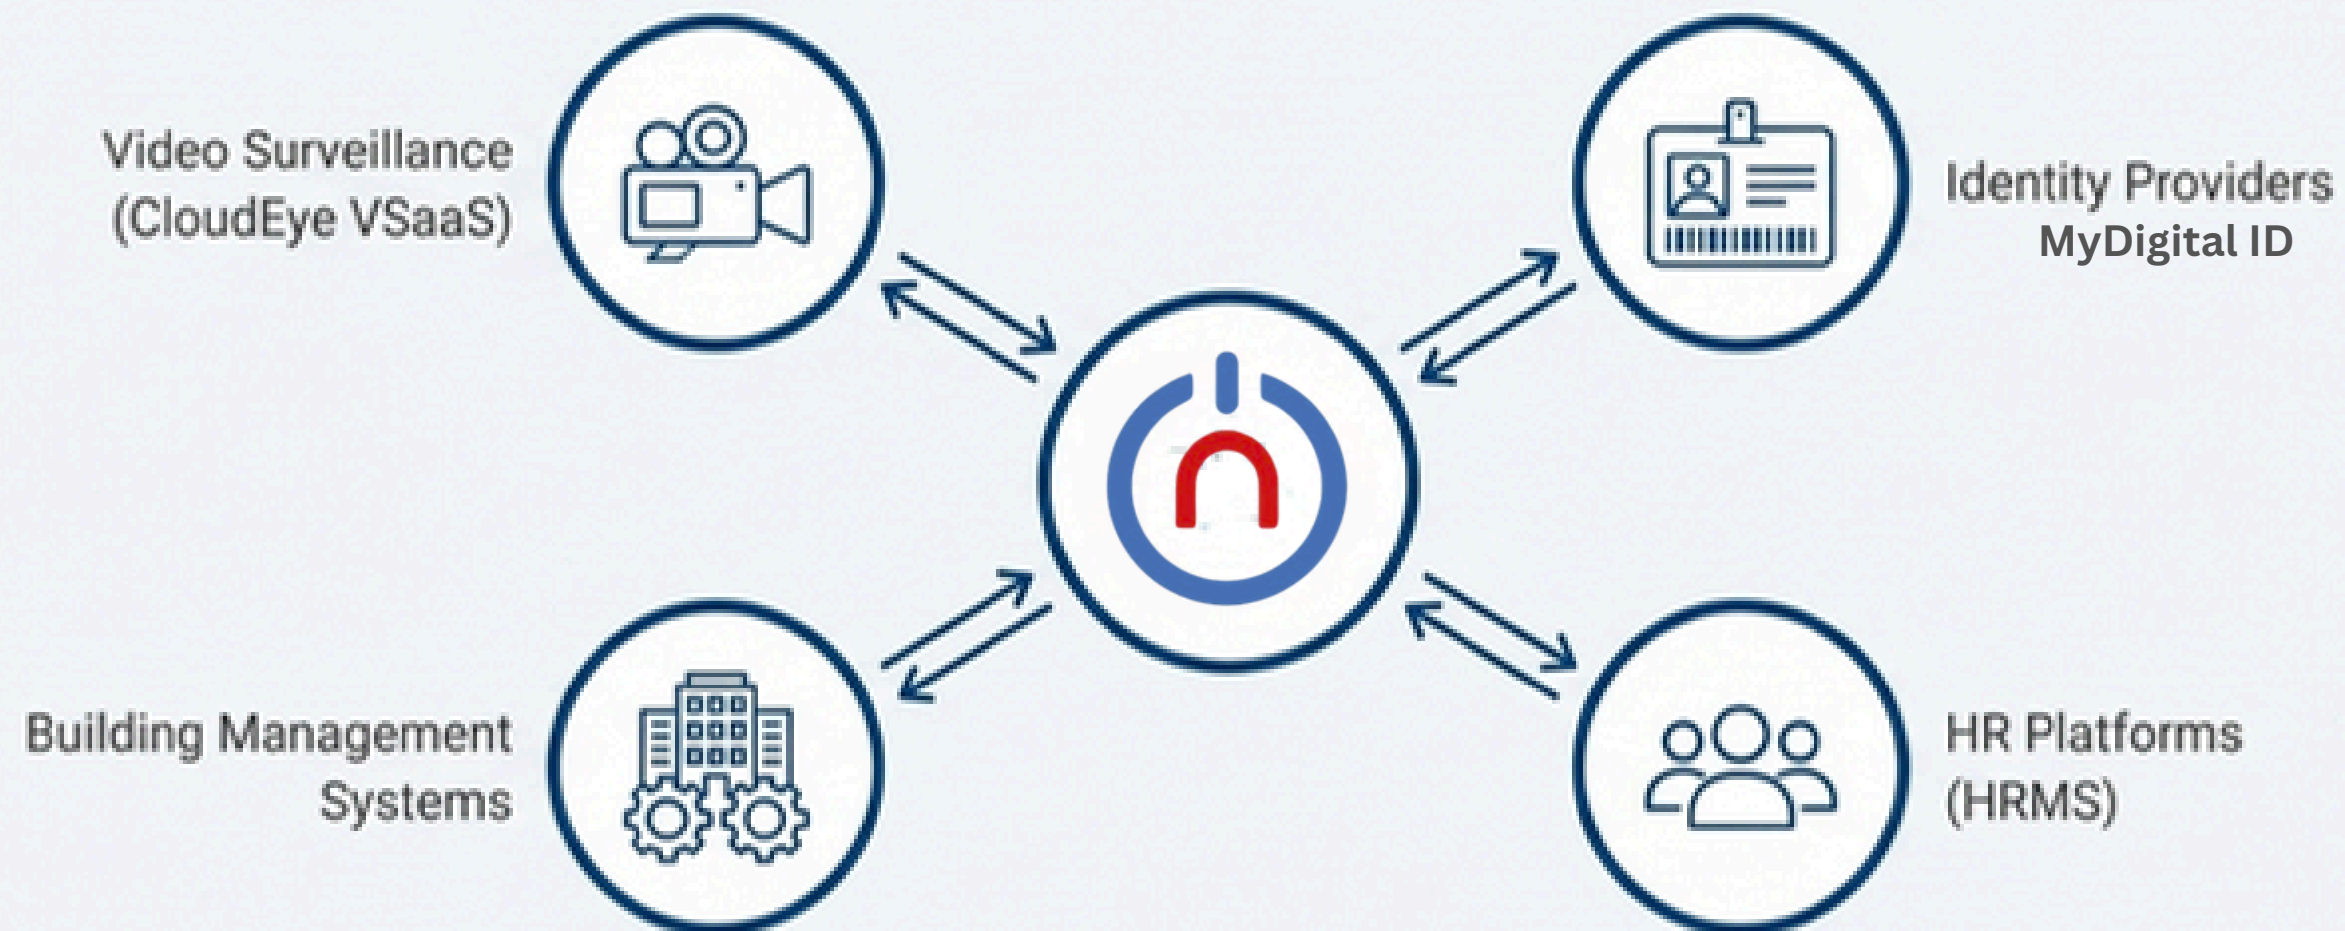

Limitless Upgrades, Endless Possibilities

Whether you're expanding to new locations, adding users, or integrating advanced features, the NUVEQ cloud platform scales effortlessly—without costly hardware overhauls. Add doors, sites, or users in minutes and stay ahead with continuous updates, flexible integrations, and enterprise-ready performance.

Unlock a Unified Security Ecosystem with Our Open API

Your security systems shouldn't operate in silos. Our cloud-based platform offers flexible, well-documented APIs that enable smooth integration with video surveillance, intrusion detection, identity management, and other critical systems. Create customized workflows, automate tasks, and unify your technology stack—all with secure, real-time data exchange.

Secured by the Same Infrastructure that Protects Google

Your data deserves the highest level of protection. Our system is built on Google's ULTRA SECURE Cloud Platform, featuring encrypted infrastructure with multi-layered security protocols. From access logs to user credentials, all sensitive information is safeguarded with end-to-end encryption and 24/7 monitoring.

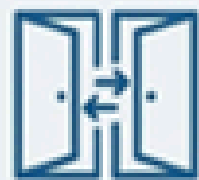

Intelligent Features for Total Control and Protection

Leverage a suite of advanced features to manage access, respond to threats, and ensure compliance across all your sites.

Advanced Security

Anti-Passback

Door Interlocking

Dual Access Modes

Intrusion Alerts

Global Operations

Global Management

Access Groups & Roles

Emergency Response

Fire Alarm Integration

Emergency Lockdown

Emergency Mustering System

A Platform Built for Business Performance.

Moving to NUVEQ is more than a security upgrade; it's a strategic investment in efficiency, sustainability, and long-term value.

Streamlined Operations

Automate credentialing, reduce manual tasks, and manage everything from a single dashboard.

Cost-Effective Security

Eliminate expensive on-site servers, reduce IT overhead, and benefit from scalable, subscription-based pricing.

Future-Proof Scalability

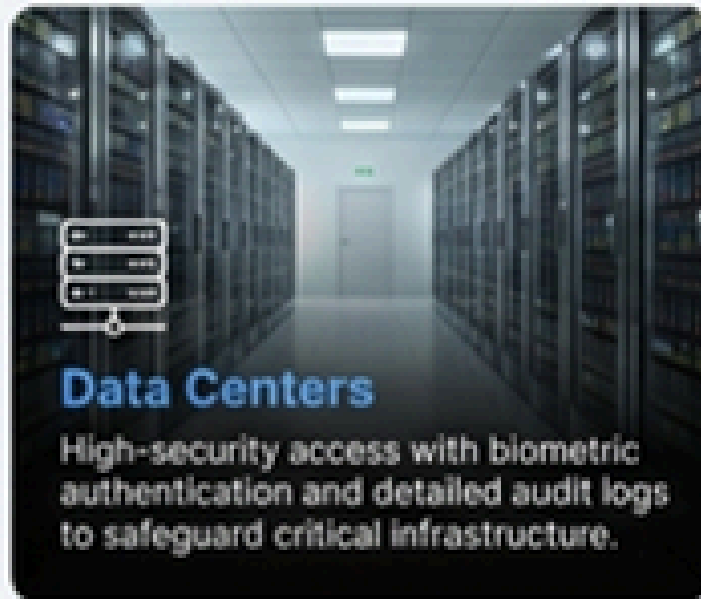

Effortlessly add users, doors, or sites. Stay ahead with continuous, automatic platform updates.

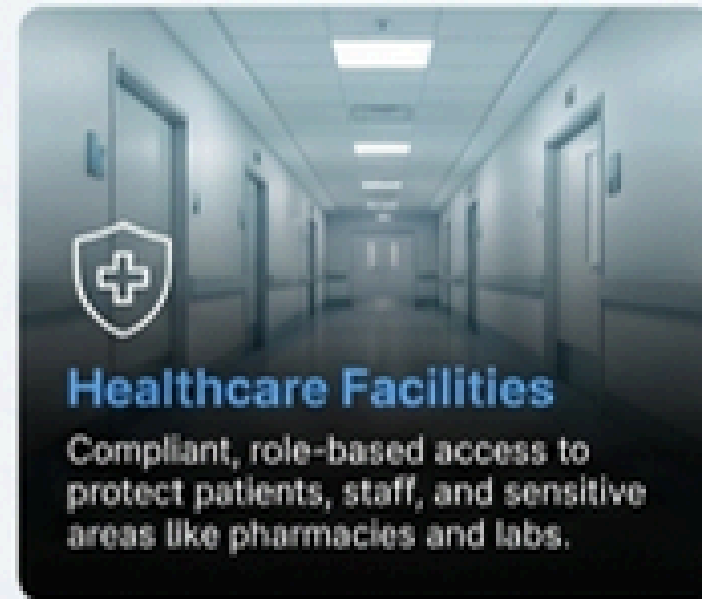

Eco-Friendly Security

Reduce your environmental footprint by eliminating on-site hardware and minimizing paper-based processes.

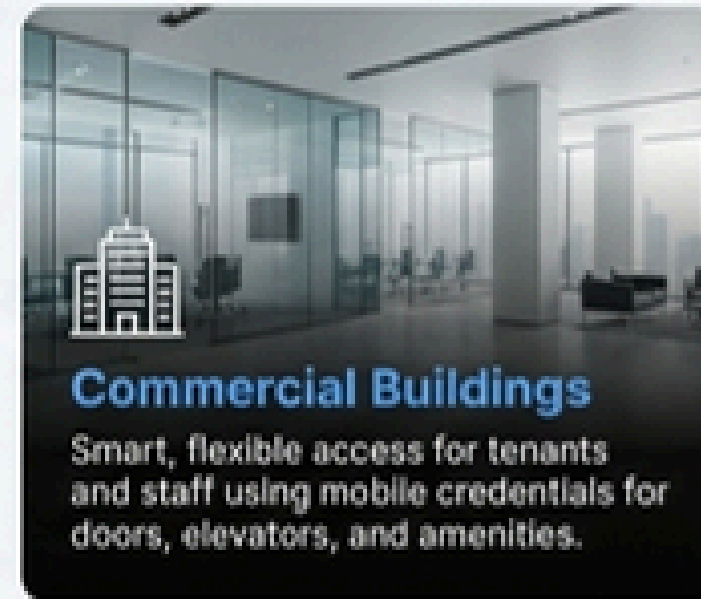

Cloud-Based Solutions Tailored for Every Industry

Data Centers
High-security access with biometric authentication and detailed audit logs to safeguard critical infrastructure.

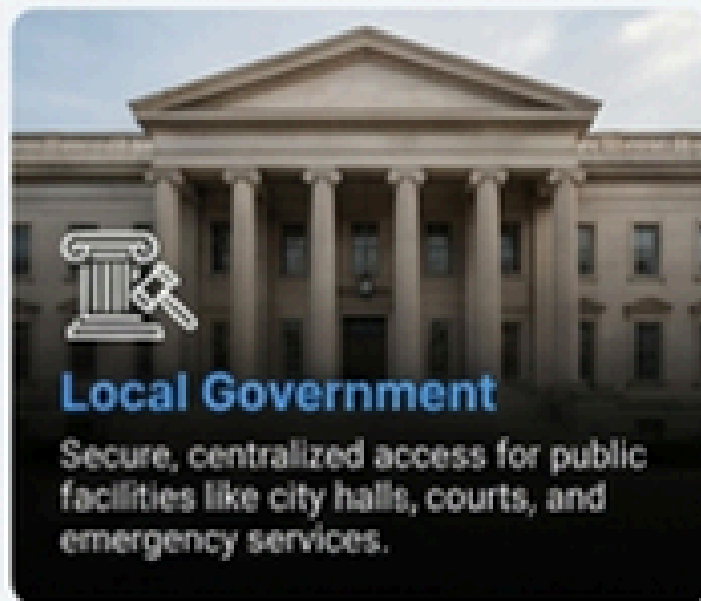

Healthcare Facilities
Compliant, role-based access to protect patients, staff, and sensitive areas like pharmacies and labs.

Commercial Buildings
Smart, flexible access for tenants and staff using mobile credentials for doors, elevators, and amenities.

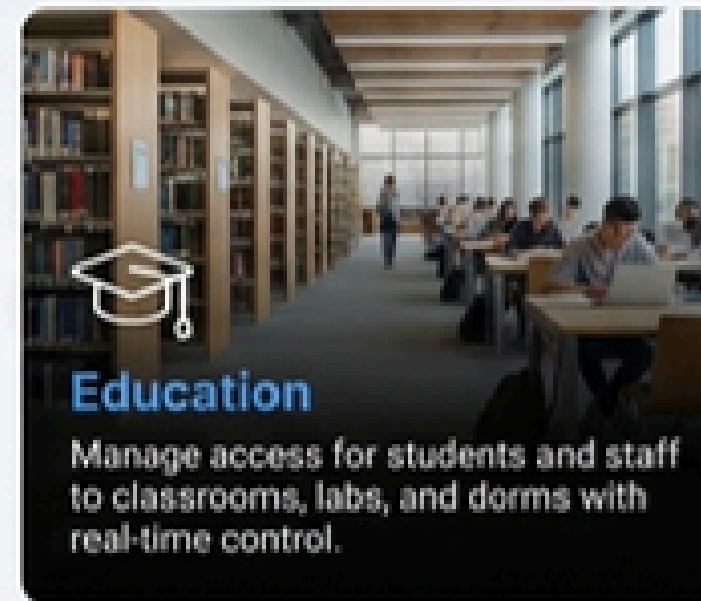

Manufacturing
Robust access for employees and contractors to secure production floors, warehouses, and restricted zones.

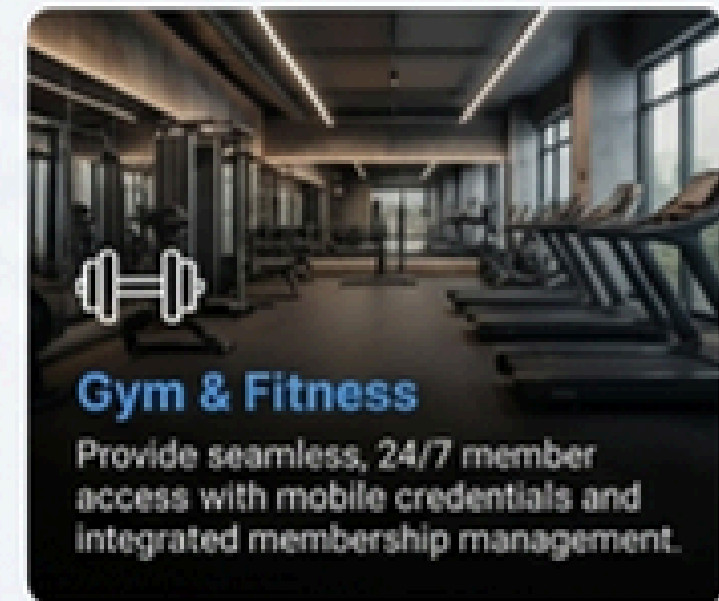

Local Government
Secure, centralized access for public facilities like city halls, courts, and emergency services.

Banking
Protect sensitive areas and assets with multi-factor authentication and detailed audit trails for compliance.

Education
Manage access for students and staff to classrooms, labs, and dorms with real-time control.

Gym & Fitness
Provide seamless, 24/7 member access with mobile credentials and integrated membership management.

Experience the Future of Access Control.

Take the first step towards a more secure, efficient, and scalable access control platform.
