Power By
Google Cloud

Your facility is more complex than ever. Is your security keeping up?

Dynamic Workforce

Managing a constant flow of employees, contractors, and visitors across multiple sites, shifts, and access levels is a significant operational burden.

High-Stakes Compliance

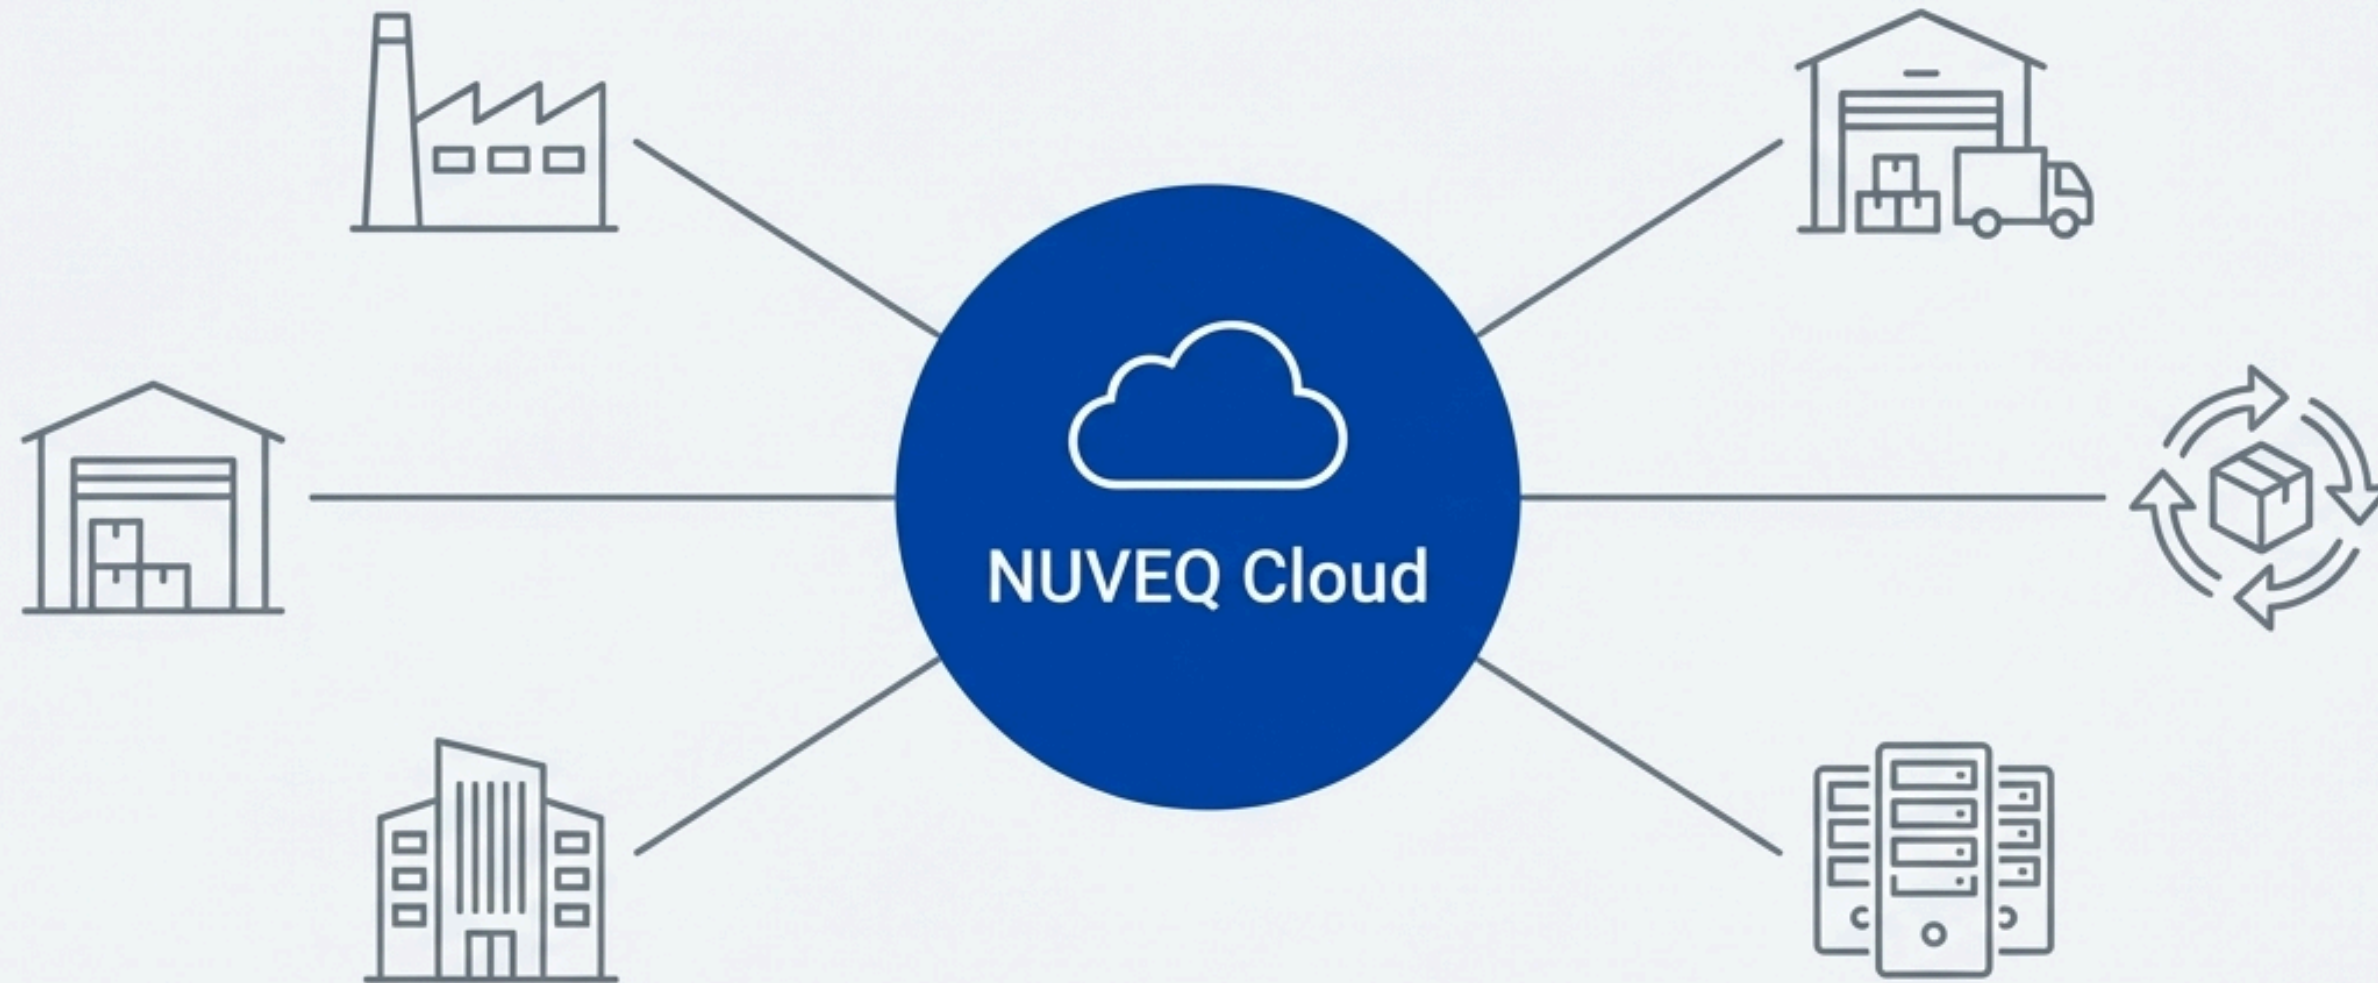

Safety regulations and industry standards demand auditable, reliable access records to prevent incidents and ensure operational integrity.

Operational Continuity

Any security breach, from asset theft to unauthorized access in a sensitive zone, can halt production, cause costly downtime, and impact the entire supply chain.

The Central Nervous System for Your Facility's Security

NUVEQ is a cloud-native access control platform engineered to meet the unique challenges of manufacturing and industrial environments. It strengthens your defense against unauthorized access, streamlines compliance, and unifies your entire security infrastructure into a single, intelligent dashboard.

Total Control, from the Cloud to the Door.

Cloud Management Platform

The software core for global, remote control and real-time monitoring. The single source of truth for your entire operation.

Smart IoT Controllers

The on-site hardware that makes intelligent decisions. Provides robust offline capability, ensuring access continuity even during network failure.

Advanced Readers & Credentials

The secure and flexible interface for your users. We support multiple formats to fit your needs, including Mobile Credentials (BLE/NFC), Encrypted NFC Cards, QR Codes, and AI Biometric Recognition.

Your Entire Operation, on a Single Screen.

Global Remote Management

Grant or revoke access permissions instantly, from anywhere. Control individual doors or entire premises remotely.

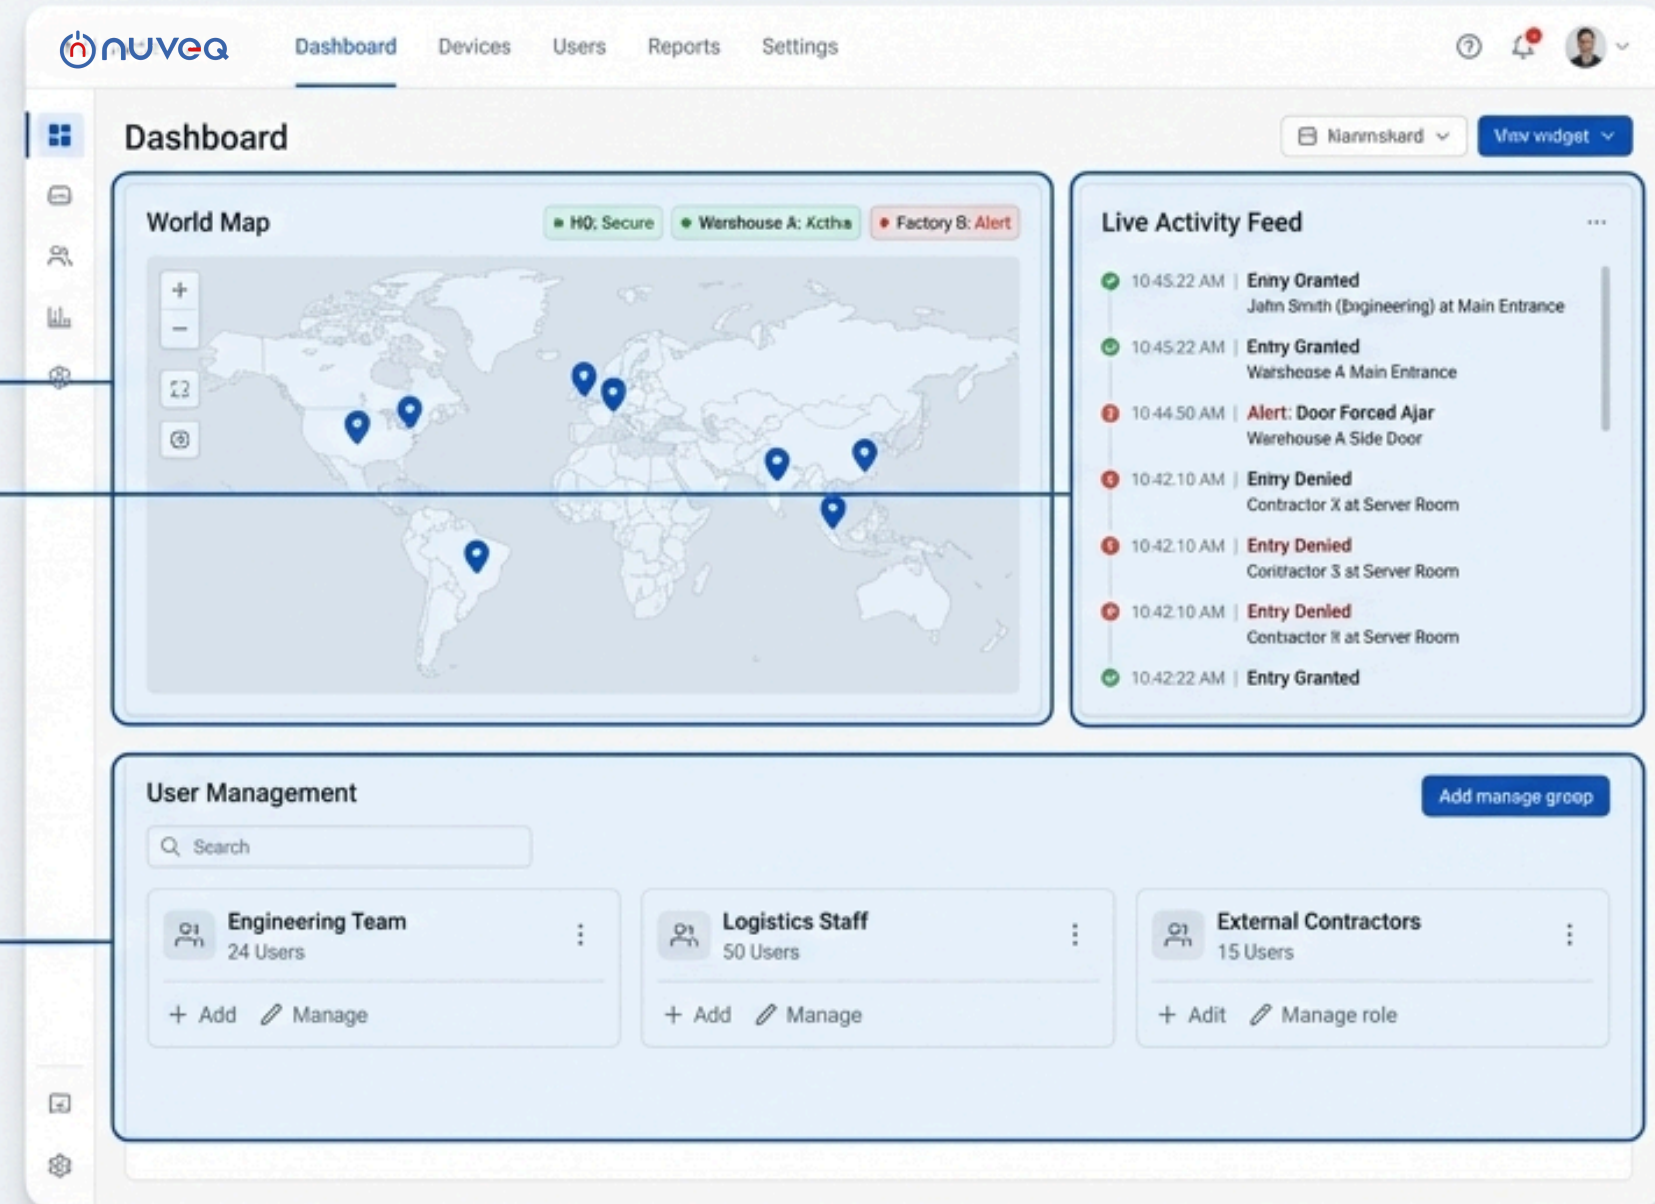

Real-time Monitoring & Alerts

Monitor entry/exit activities live. Receive instant notifications for unauthorized access attempts, intrusion alerts, or other security breaches.

Access Groups & Roles Management

Easily tailor access levels based on roles and responsibilities. Manage complex permissions for employees, contractors, and visitors to ensure the right people have the right access.

Go Beyond Access. Achieve True Security. Achieve True Security.

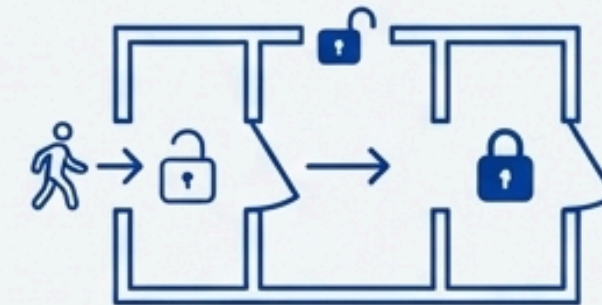

Layered Protection

Implement Two-Factor Authentication (Dual Access Modes) and Intrusion Detection to actively monitor premises and prevent breaches.

Emergency Protocols

Integrate with Fire Alarm systems. Deploy Emergency Lockdown or Mustering Systems with a single click from the dashboard.

Targeted zone control

Use features like Anti-passback and Door Interlocking to prevent tailgating and secure high-risk zones like labs, server rooms, or inventory cages.

Your Security System Should Play Well with Others

NUVEQ is designed to be the hub of your operational technology, minimizing security threats and keeping user information up to date across all platforms.

Seamless Integration: Connect with your existing HRMS, time-attendance, and Visitor Management systems to streamline workflows.

Open API for Customization: Our Developer API allows you to develop custom integrations with your preferred enterprise software, from data analytics tools to proprietary industrial systems.

Save Time. Reduce Manual Workload.

Automated Schedules & Remote Control

Set up automatic schedules for locking and unlocking doors to minimize manual intervention.

Automated Visitor Access

Save administrative time by sending temporary access links or digital keys directly to vendors' and contractors' smartphones.

Mobile-First Convenience

Use the NUVEQ mobile app to manage the system on the go and unlock doors with a single tap of your device.

Built for Today. Ready for Tomorrow.

Always-On Reliability

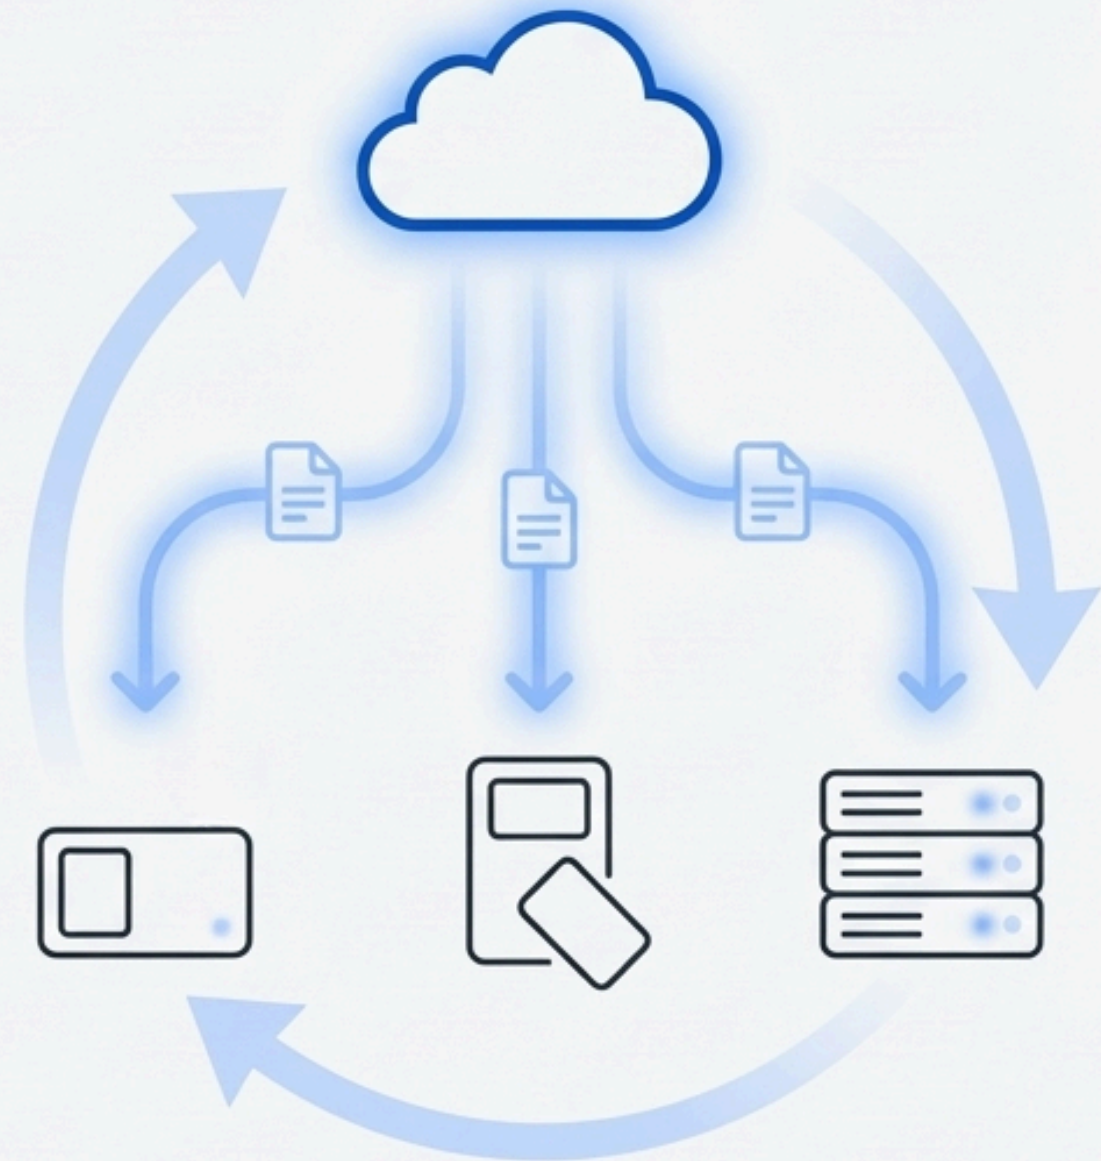

Offline capabilities ensure your system functions and access is maintained even during a network failure.

Limitless Updates

Over-the-air (OTA) updates deliver new features and critical security patches seamlessly, preventing vulnerabilities and future-proofing your system.

Unmatched Security

Powered by the Google ULTRA SECURE Cloud Platform, providing enterprise-grade security and reliability for your data.

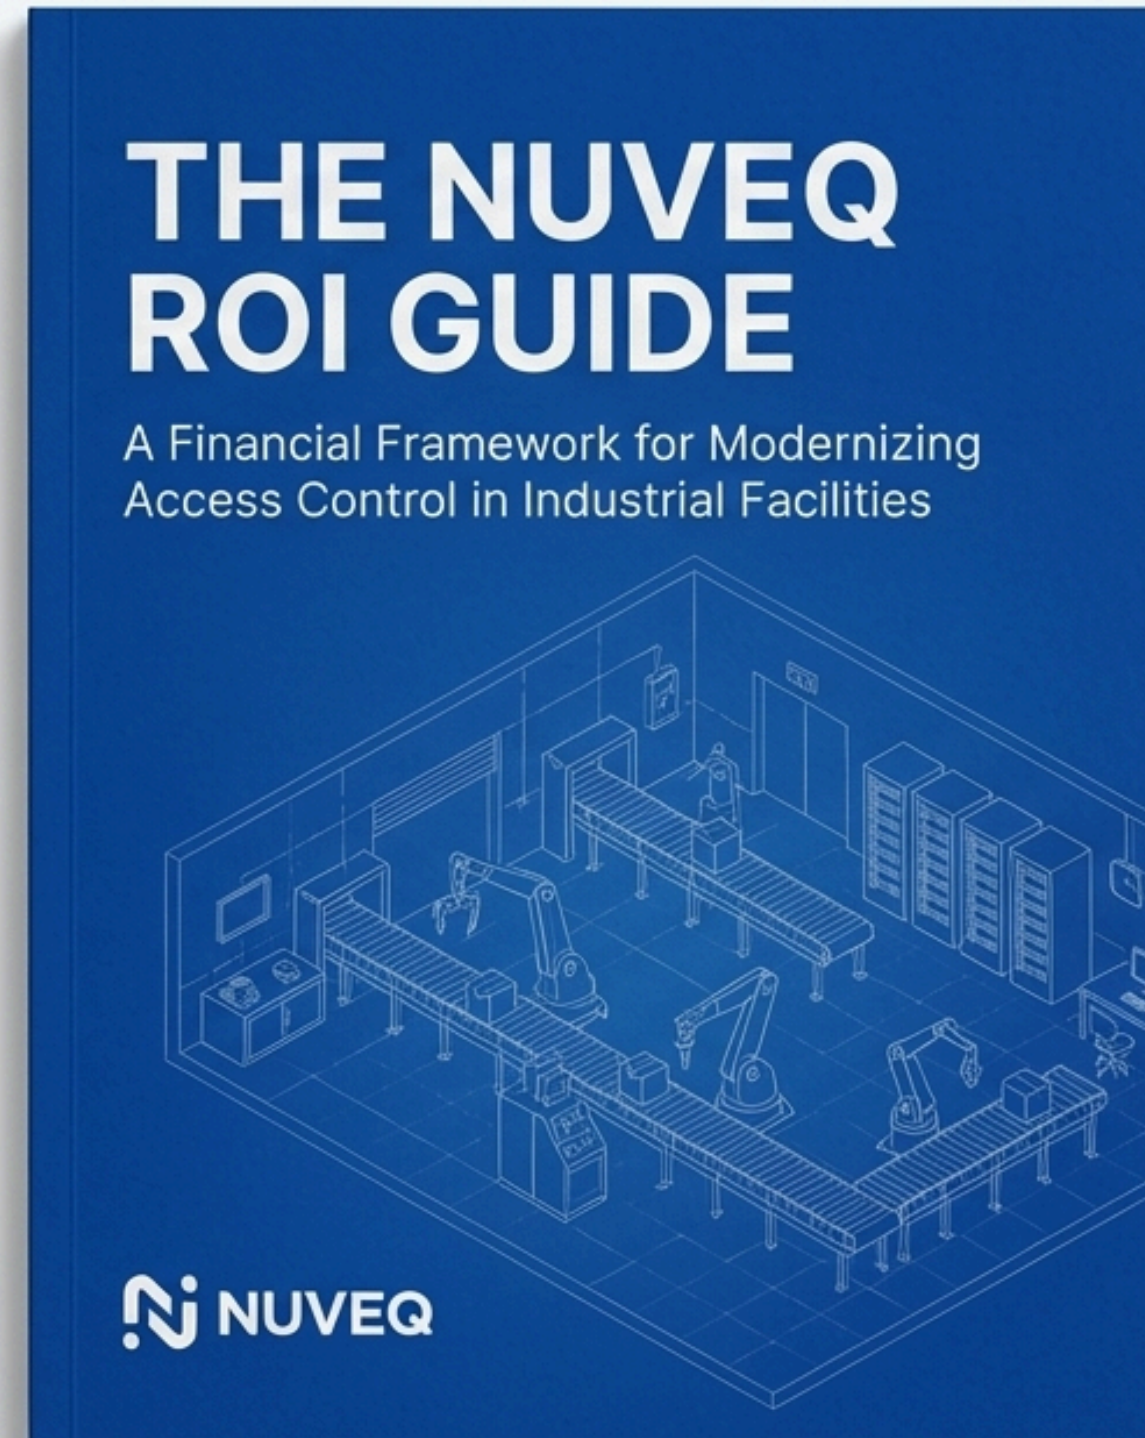

Tailored for High-Security Industrial Environments.

- Manufacturing Facilities
- Logistics & Storage Facilities
- Food Manufacturing Plants
- Distribution & Supply Chain Networks
- Consumer Electronics Manufacturers
- Industrial Equipment & Services
- Data Centers

Modernize Your Security Without Service Interruptions

Discover how NUVEQ enables a cost-effective transition to a cloud-based system with flexible migration options.

Obtain our ROI guide today to gain further insight into the long-term value and savings of a modern access control platform.
